

What Is a Master Cost Center in ISIS HR?

Issued 10/12/07

The **master cost center** is designated by an “A-011” Cost Center Assignment relationship linking an Organizational Unit (Object “O”) to a specific Cost Center (Object “K”) in Org Management. This cost center is primarily used for budget reporting (e.g. ZP19, ZP116, and ZF09).

The screenshot displays the 'Display Relationships' window in the ISIS HR system. The window title is 'Display Relationships' and it includes a menu bar with 'Infotype', 'Edit', 'Goto', 'Extras', 'View', 'System', and 'Help'. Below the menu bar is a toolbar with various icons. The main content area is divided into several sections:
