INTRODUCTION

Purpose This section addresses the installation tables and processes. The purposes of Section 1 are:

- To provide a structured document to be used for processing within the installation tables.
- To provide concepts for processing within the installation tables.
- To provide procedures for processing within the installation tables.
- To provide data entry instruction by screen for processing within the installation tables.
- To provide documentation and instruction for processing of as required reports within the installation tables.

All of the basic information required for processing within the installation tables is contained within this section.

Structure This section is comprised of a minimum of 4 chapters. Chapter 1 addresses Concepts, Chapter 2 addresses procedures, Chapter 4 addresses the documents (screens), and Chapter 6 addresses any applicable as required reports and processing procedures. Each chapter will contain a table of contents for that chapter for ease of reference and location of desired information.
