## Program Description

The mission of the Federal Support Program is to distribute federal flow-through funds to school and community programs that enhance learning environments for disadvantaged or disabled students and students from disadvantaged backgrounds or high-poverty areas, provide the financial resources necessary to develop and assist Local Education Agencies (LEAs) in implementing tools and practices that effectively guide them in managing human capital, alignment of programs, policies and funding, and school turnaround strategies, and provide the necessary financial resources in the LEAs and schools to support the Early Childhood Activities.

The goal of the Federal Support Program is that local school boards and other local entities will use federal flow-through funds to assist disadvantaged, disabled or at-risk children in meeting challenging standards, to flow federal funds to local school districts and schools to improve the knowledge and skills of school personnel and develop highly qualified teachers, and to provide the necessary financial resources to target interventions in content areas that support the goals of the Department at particular districts and schools.
