# FY19: The Facts

- No one-time money for recurring expenses
- No fund sweeps
- No mid-year deficit
- Anticipated excess in the current year

# Use of Current Year Excess

- Finalize implementation of LaGov financial system — \$15 Million
- Repay FEMA for multiple disasters including the August 2016 flood — \$25 million
- Partial repayment plan for Public Service Commission and Environmental Quality — \$3 Million
- Higher Education and TOPS — \$19 million
- Corrections — \$16 Million

# Budget Stability

- No one-time funds or fund sweeps
- Resolution of the fiscal cliff
- Improved credit status

# The Revenue Dilemma

# REC Timeline

## JUNE 2018

- Meeting to revise forecast based on legislative action.
- Revised FY19 forecast.
- Revised FY20 forecast only as part of long-range forecast. Thus, no fees or self-generated revenue were included. Only updated "Page 2" dedications.

## NOV. 2018

- Motion to adopt DOA forecast for FY19, FY20.
- Speaker proxy objects; no vote but other three members voice support for DOA forecast.

## DEC. 2018

- Voted 3-1 to adopt DOA forecast for FY19, FY20.

## JAN. 1

- Applicability of La. R.S. 39:26(A)(2).

## JAN. 2019

- Voted 3-1 to adopt DOA forecast for FY20.

## FEB. 2019

- Voted 3-1 to adopt LFO forecast.
- Voted 3-1 to reject Speaker's proposal to approve current stat deds and self-generated revenue numbers and not revise June 2018 general fund forecast or "Page2" dedications.

# The Law

- Article VII(11) of the Constitution provides as follows: “The governor shall submit to the legislature...a budget estimate [which] shall include a recommendation for appropriations from the **state general fund and from dedicated funds**...which shall not exceed the official forecast...”
- Article VII(11) must be considered in tandem with the provisions of Article VII(10)(B) dealing with the REC, which says: “The conference shall prepare and publish **initial and revised** estimates of money to be received by the **state general fund and dedicated funds** for the current and next fiscal years which are available for appropriation...”
- Louisiana R.S. 39:26(A)(2) provides: “By January 1 the conference **shall revise** the official forecast for the **ensuing fiscal year** which shall be utilized in the preparation of the **executive budget**.”

# FY 2020 June 2018 Scenario

## The Twilight Zone

# Even if June 2018 Scenario Could Be Used

- Does not include approximately \$2.5 billion in other dedications and self-generated revenues
- Federal funds are not adjusted for the loss of self-generated and statutory dedications to be used as matching funds
- No adjustment to interagency transfers is included due to the complexity of realigning state mandated costs if some agencies are not funded
- Table of Organization is not adjusted to reflect the amount of layoffs and/or terminations if agencies are not funded

# Even If June 2018 Scenario Could Be Used

Major reductions due to lack of forecast:

- State Treasurer 79%
- Insurance 98%
- CRT 44%
- Public Safety Services 58%
- Natural Resources 45%
- Revenue 99%
- Environmental Quality 82%
- Wildlife & Fisheries 66%
- Ancillary Budgets 73%

# Even if ... the Deep Uncertain Hole

	Budgeted 2018-2019	June 2018 Scenario	June 2018 Over/(Under) Budgeted
General Fund	\$9,560.4	\$9,605.5	\$45.1
Fees/Self Generated	\$2,847.2	\$1,476.3	(\$1,370.9)
Statutory Dedications	\$4,320.8	\$3,209.9	(\$1,110.9)
Federal Funds	\$14,150	\$14,666	\$516
<b>Total</b>	<b>\$30,878.5</b>	<b>\$28,957.8</b>	<b>(\$1,920.7)</b>

In  
Millions

# Other Impacts

- Due to the complexity of calculating the impact of not including dedications and self-generated, the negative impacts to the Federal Funds and Interagency Transfers Means of Financing and to positions would have to be included in any Executive Budget recommendation
- As an example or illustration of the potential impact to Federal Funds
  - The Department of Health will not be able to include \$832 million in dedications and self-generated revenues
  - This will equate to over \$1.6 billion in federal funds
  - A total of approximately \$2.5 billion in funding would not be able to be included in the budget at this time
- This leads to an absurd result and would not be in the public's interest to make such a recommendation based on this scenario
