EXECUTIVE ORDER BJ 15-10

Voter Registration Opportunities

WHEREAS, it is the announced policy of the State of Louisiana as established by the Legislature, Governor and Secretary of State to encourage full participation in voting by all citizens of the State;

WHEREAS, to that end the State has expanded voter registration opportunities through registration at parish Registrar's offices, at the Office of Motor Vehicles, registration by mail, assisting in voter registration drives,

implementing an online voter registration system at www.GeauxVote.com, dedicating a state voter registration week, providing early registration for sixteen year olds in connection with their first time driver's license applications, as well as a myriad of other activities and programs designed to remind and assist citizens with voter registration;

WHEREAS, the State has also continued in effect a program of voter registration established in La. R.S. 18:116 and the National Voter Registration Act (NVRA) providing for voter registration at designated public assistance agencies and offices that provide state funded programs primarily engaged in providing services to persons with disabilities in connection with certain defined benefit transactions at the respective agencies and offices identified and defined as "voter registration agencies";

WHEREAS, while state registration programs are effective in providing citizens the opportunity to register to vote as evidenced by Louisiana having approximately 86% of its eligible citizens registered to vote, the NVRA voter registration program continues to have value by further ensuring that as many citizens as possible are afforded the opportunity to register to vote;

WHEREAS, the Secretary of State, in Article IV, Section 7 of the Louisiana Constitution of 1974, is designated the Chief Election Officer of the State and as such is assigned the duty of coordinating state responsibilities under the National Voter Registration Act and applicable voter registration laws of the state;

WHEREAS, coordination of state responsibilities under the National Voter Registration Act has been broadly construed to include primary enforcement of the state's responsibilities under the NVRA with respect to voter registration agencies;

WHEREAS, pursuant to his duty to coordinate state responsibilities and in accordance with the Administrative Procedure Act, the Secretary of State has adopted administrative rules with respect to voter registration agencies as set out in LAC 31:II.401-421;

WHEREAS, an executive order directed to voter registration agencies within the executive branch is deemed advisable and necessary to reinforce and clarify the authority of the Secretary of State with respect to all such voter registration agencies.

NOW THEREFORE, I, BOBBY JINDAL, Governor of the State of Louisiana, by virtue of the authority vested by the Constitution and laws of the State of Louisiana, do hereby order and direct as follows:

SECTION 1: The Department of Children and Family Services, the Department of Health and Hospitals, the Louisiana Workforce Commission, and such other offices, agencies, or departments designated as public assistance agencies and offices that provide state funded programs primarily engaged in providing services to persons with disabilities are hereby directed to implement and fully effectuate voter registration procedures, practices and forms in accordance with the administrative rules promulgated by the Secretary of State for "voter registration agencies" as

those administrative rules exist and may hereafter be amended.

SECTION 2: All departments, commissions, boards, offices, entities, agencies, and officers of the State of Louisiana, or any political subdivision thereof, are authorized and directed to cooperate in the implementation of the provisions of this Order.

SECTION 3: This order is effective upon signature and shall remain in effect until amended, modified, terminated or rescinded.

IN WITNESS WHEREOF, I have set my hand officially and caused to be affixed the Great Seal of Louisiana, at the Capitol, in the city of Baton Rouge, on this 8th day of July, 2015.

Strategies to Empower People (STEP) Program
(LAC 67:III.5721)

The Department of Children and Family Services (DCFS), Economic Stability, has exercised the emergency provision of the Administrative Procedure Act, R.S. 49:953(B) to amend LAC 67:III, Subpart 16, Strategies to Empower People (STEP) Program, Chapter 57, Strategies to Empower People (STEP) Program, Section 5721, Job Readiness. This Emergency Rule shall be effective July 1, 2015 and shall remain in effect for a period of 120 days.

Pursuant to Louisiana's Temporary Assistance for Needy Families (TANF) block grant, amendment of Section 5721 is necessary to give the department more flexibility in operating the STEP program by eliminating the work-eligible FITAP applicant requirement of registering for work during the application period and prior to certification with Louisiana Workforce Commission (LWC). Work-eligible FITAP recipients will register for work when participating in job readiness activities. The proposed Rule does not eliminate any work requirements as specified by law. Work activity requirements including job readiness activities are included in §5713, Work Activities.

The department considers emergency action necessary to facilitate the expenditure of TANF funds. The authorization to promulgate emergency rules to facilitate the expenditure of TANF funds is contained in Act 15 of the 2014 Regular Session of the Louisiana Legislature.

(LAC 28:CLXI.103, 507, 701, 703, 903, 1105, 1111, 1301,

The Board of Elementary and Secondary Education (BESE) has exercised the emergency provision in

accordance with R.S. 49:953(B), the Administrative Procedure Act, and R.S. 17.6 to amend LAC 28:CLXI, *Bulletin 137—Louisiana Early Learning Center Licensing Regulations*: §103, Definitions; §507, Criminal Background Checks for Owners; §701, Initial Application Process; §703, Initial Inspection Process; §903, Change of Ownership; §1105, Identified Violations and Fines; §1111, Payment of Fines; §1301, Reasons for Denial; Revocation or Refusal to Renew; §1303, Notice of Denial, Revocation or Refusal to Renew; §1307, Appeal of Denial, Revocation or Refusal to Renew; §1511, Procedures; §1515, Child Records and Cumulative Files; §1703, Criminal Background Checks for Volunteers, Staff, Visitors and Independent Contractors; §1707, Required Staff; §1713, Supervision; §1721, Continuing Education; §1903, Physical Environment; §1907, Furnishings and Equipment; and §1921, Emergency Preparedness and Evacuation Planning. This Declaration of Emergency, effective July 1, 2015, will remain in effect for a period of 120 days or until finally adopted as a Rule.

Act 868 (Early Learning Center Act) of the 2014 Regular Legislative Session transferred licensing authority from the Department of Children and Family Services (DCFS) to the Louisiana Department of Education (LDE) effective October 1, 2014. The law requires BESE to establish statewide minimum standards for the health, safety and well-being of children in early learning centers, ensure maintenance of these standards, and regulate conditions in early learning centers through a program of licensing administered by the LDE. As required by law, the LDE has worked with various stakeholders including early learning center providers (child care, Head Start/Early Head Start, nonpublic), the state sanitarian, the fire marshal, the Department of Health and Hospitals, and the Department of Children and Family Services.

The revisions to the regulations make technical changes and add clarifications where needed; ensure children can receive therapeutic services in appropriate settings from professionals; and enable type III early learning centers (child care and Head Start) to allow staff from other centers perform classroom observations (CLASS® observations). To provide for implementation of the licensing regulations prior to the start of the 2015-2016 school year, BESE has exercised the emergency provision in the adoption of this policy revision.

§509. Funding Availability and Prioritization

A. Availability. Louisiana's share of the national total of available funds for child care programs is based on factors determined by federal law and regulation. Funds are appropriated by Congress and allocated on an annual basis so that a limited amount of federal funding is available each year through the Child Care and Development Fund (CCDF). Therefore, a determination will be made of the number of children, or seats, that CCDF can pay for based on available funding.

B. Prioritization

1. The children of STEP participants shall be categorically eligible for CCAP. The children of STEP participants whose FITAP eligibility is terminated due to earned income will be given priority status with seats available for them as long as other eligibility factors are met and funding is available.

2. Children with special needs will be given priority status should it be necessary for a waiting list to be implemented. Children with special needs will be given priority status with seats available for them as long as other eligibility factors are met.

3. After all available seats are filled, a waiting list of households or eligible children will be established and maintained for each parish in chronological order by date of application. As seats become available, households will be removed from the waiting list and considered for current eligibility.

a. To facilitate maintaining an active waiting list in each parish, open enrollment will be scheduled for a limited time in the months of October, January, April, and July. During open enrollment periods, children in households determined eligible will be added to the waiting list. At the department's discretion additional enrollment periods may be designated.

C. The department has the authority to implement an application freeze based on the lack of available child care funds to operate CCAP.

B. Action will be taken to recover:

1. all ineligible payments from currently participating households;
2. all payments resulting from an intentional program violation (IPV); and
3. all payments resulting from errors that are discovered in a quality control review.

C. When a participant is suspected of IPV, the department may:

1. refer the case for prosecution; or
2. refer the case for a disqualification hearing if the participant does not sign the waiver of right to an administrative hearing and the facts of the case do not warrant civil or criminal prosecution through the appropriate court systems, or the case was previously referred for prosecution and was declined by the appropriate legal authority, or the case was previously referred for prosecution and no action was taken within a reasonable period of time and the referral was formally withdrawn by the department.

D. If an IPV is identified, the department may send a notice to the person to be disqualified and take action to disqualify for the appropriate situations:

1. 12 months for the first violation;
2. 24 months for the second violation; and
3. permanently for the third violation.

The sliding fee scale is based on a percentage of the state median income.

§503. Coordinated Observation Plan and Observation Requirements

A. Coordinated observation is the local process by which each community network ensures that every classroom in a publicly-funded site in the community network receives two CLASS® observations each school year.

B. CLASS® Observation Requirements

1. A CLASS® observation is an observation of a classroom using the appropriate toddler or PreK CLASS® using all domains, typically occurring during the morning, in which a reliable observer conducts four 20-minute cycles of observation and note-taking followed by at least 10 minutes of scoring after each observation cycle.

2. Domains and Dimensions

a. CLASS® observations for toddler classrooms shall include both toddler CLASS® domains, which are emotional and behavioral support and engaged support for learning, and all dimensions contained within.

b. CLASS® observations for PreK classrooms shall include all three PreK CLASS® domains, which are emotional support, classroom organization, and instructional support, and all dimensions contained within.

3. Required Observations

a. All toddler and PreK classrooms in a publicly-funded site shall receive two CLASS® observations during the school year conducted by the community network.

b. One observation shall occur during the fall observation period, if the classroom is in existence on October 1, and the other shall occur during the spring observation period, if the classroom is in existence on February 1.

c. CLASS® observations conducted by third-party contractors hired by the department shall not count towards this requirement.

4. Use of Toddler or PreK CLASS®. Classrooms shall be observed with the same CLASS® throughout the school year based on the composition of the classroom when the observation plan required in §503.C is submitted according to the following.

a. A classroom that only has infant children or a classroom that has a mix of infant and toddler children in which a majority are infant children shall not be observed.

b. A classroom that has all toddler children or a classroom that has a mix of infant and toddler children in which the majority are toddler children shall be observed with the toddler CLASS®.

c. A classroom that has all PreK children or a classroom that has a mix of toddler and PreK children in which the majority are PreK children shall be observed with the PreK CLASS®.

C. Coordinated Observation Plan

1. Each community network shall submit for department approval no later than September 30 a written annual plan for coordinated observation using CLASS® that at a minimum includes:

a. the number of CLASS® observers who will conduct observations;

b. the total number and the location of toddler and PreK classrooms that must be observed;

c. an observation schedule that includes two observations for each toddler and PreK classroom identified in Subparagraph B.3.b of this Section, with one observation scheduled during the fall observation period and one during the spring observation period; and

d. specific requirements that ensure the following:

i. all observers are reliable, which is defined as all observers having a certification achieved by completing and passing all trainings and assessments required by Teachstone to conduct a CLASS® observation with validity and fidelity;

ii. all observers maintain inter-rater reliability and fidelity. Inter-rater reliability occurs when two or more observers produce consistent observation results for the same classroom at the same time;

iii. the community network conducts inter-rater reliability observation checks for 10 percent of all classrooms observed; and

iv. no observer conducts an observation in a classroom in which the observer has a conflict of interest. A conflict of interest may exist in, but is not limited to, situations in which the observer: supervises, provides training or technical assistance to, or is an immediate family member of a teacher in the classroom being observed or has a direct financial interest in the site where classrooms are being observed.

§509. Performance Rating Calculations for Publicly-Funded Sites

A. The performance rating for each publicly-funded site shall be based on the average of the domain level toddler and PreK observation results from the fall and spring observation periods for all toddler and PreK classrooms within the site.

1. BESE may include a weight for improvement beginning with the 2016-2017 school year.

B. Any classroom in a publicly-funded site that does not have the observations required in §503 or does not have all results reported, shall have a score of one assigned to each missing CLASS® domain score. The score of one for

missing or not-reported observation results shall be included in the performance rating calculation for that site and the number of missing or not-reported observation results shall be reported on the performance profile.

1. Lead agencies may have their approval terminated as provided in §309.G for incomplete observations or observation results not reported.

2. Any site or program that has diligently sought observations from the lead agency, including written evidence of such efforts, and that has not been provided such observations, may request of BESE an appeal of its performance rating as described in §521. BESE shall consider diligent efforts and evidence thereof in determining the appeal.

3. Prior to the issuance of the publicly-funded site or community network profiles, the department shall provide to the advisory council on early childhood care and education committee members and to BESE members a list of all publicly funded sites receiving a score of one due to a missing or not-reported CLASS® domain score and the number of such ones received by each site.

C. The department shall compare the domain level results from observations of classrooms conducted by the department's third-party contractors to the domain level results from observations conducted by the community network for each publicly-funded site.

1. In calculating the performance rating, the department shall replace domain level results from classroom observations conducted by community networks with the domain level results from observations conducted by the department's third-party contractors for any single domain in which the results differ by more than one point and shall calculate the performance rating using the replaced results.

2. The department shall monitor the domain level observation results of classroom observations conducted by community networks for each publicly-funded site, including by observer, and domain level observation results conducted by the department's third-party contractor for each publicly-funded site.

a. For the 2015-2016 learning year, if the observation results conducted by community networks are consistently different by more than one point from observation results conducted by the department's third-party contractors, the department may replace all of the community network's observation results for a publicly-funded site with the results from the department's third-party contractors, including those results that do not differ by at least one point.

b. The department shall review results from the 2015-2016 learning year and recommend policy to BESE for 2016-2017 and beyond.

D. The performance rating for each site shall be based on the following numerical scale:

1. 6.0-7.0—excellent;
2. 3.0-5.99—proficient;
3. 1.0-2.99—needs improvement.

E. The numerical scale and performance rating shall be used for each CLASS® domain and for the overall performance rating.

F. BESE may transition to a five-level rating scale beginning with the 2017-2018 school year.

G. BESE shall review the overall rating calculation, including but not limited to data collected on the informational metrics of best practices, prior to the 2016-2017 school year and determine whether additional factors should be added to the rating calculation.

2. An equitable access score for four-year olds shall be 50 percent of the community network performance rating.

3. BESE may include a weight for improvement on equitable access beginning with the 2016-2017 school year.

B. The CLASS® observation results shall be determined by averaging the results of all fall and spring domain level toddler and PreK observation results for all toddler and PreK classrooms within the community network.

1. Any classroom in a site that does not have the observations required in §503, or has not had all observation results reported, shall have a score of one assigned to each missing CLASS® domain. The score of one for missing observation or not-reported results shall be included in the performance rating calculation for the community network and the number of missing or not-reported observation results shall be reported on the community network's performance profile.

a. Lead agencies may be subject to termination as provided in §309.G for incomplete observations or observation results not reported.

2. The department shall compare the domain level results from observations of classrooms conducted by the department's third-party contractors to the domain level results from observations conducted by community network for each publicly-funded site.

a. In calculating the performance rating, the department shall replace domain level results from classroom observations conducted by community network with the domain level results from observations conducted by the department's third-party contractor for any single domain in which the results differ by more than one point and shall calculate the performance rating using the replaced results.

b. The department shall monitor domain level observation results of classroom observations conducted by community network for each publicly-funded site, including by observer, and domain level observation results conducted by the department's third-party contractors for each publicly-funded site.

i. For the 2015-2016 learning year, if the observation results conducted by a community network are consistently different by more than one point from observation results conducted by the department's third-party contractor, the department may replace all of the community network's observation results for a publicly-funded site with the results from the department's third-party contractor for that site, including those results that do not differ by at least one point.

ii. The department shall review results from the 2015-2016 school learning year and recommend policy to BESE for 2016-2017 and beyond.

C. The equitable access score shall be determined by calculating the access achieved by the community network for all at-risk four-year-old children in the community network coverage area. Points are earned on a seven point scale according to:

Percentage of At-Risk Four-Year-Olds Served	Points
95-100%	7
90-94.9%	6
85-89.9%	5
80-85.9%	4
75-79.9%	3
70-74.9%	2
0-69.9%	1

D. The performance rating for each community network shall be based on the following numerical scale:

1. 6.0-7.0—excellent;
2. 3.0-5.99—proficient;
3. 1.0-2.99—needs improvement.

E. The numerical scale and performance rating shall be used for reporting each CLASS® domain and the overall performance rating.

F. BESE may transition to a five level rating scale beginning with the 2017-2018 academic year.

DECLARATION OF EMERGENCY

Board of Elementary and Secondary Education

Bulletin 140—Louisiana Early Childhood Care and Education Network (LAC 28:CLXVII.Chapters 1-7)

The Board of Elementary and Secondary Education (BESE) has exercised the emergency provision in accordance with R.S. 49:953(B), the Administrative Procedure Act, and R.S. 17.6 to amend LAC 28:CLXVII, *Bulletin 140—Louisiana Early Childhood Care and Education Network*. This Declaration of Emergency rescinds and replaces the previous Declaration of Emergency for LAC 28:CLXVII, *Bulletin 140—Louisiana Early Childhood Care and Education Network*, which was effective July 1, 2015. This Declaration of Emergency is necessary to make technical edits and to ensure wording is reported as approved by BESE.

Act 3 (Early Childhood Education Act) of the 2012 Regular Legislative Session required the creation of an early childhood care and education network; established the purposes of such network and the related duties and responsibilities of certain state agencies; provided for the development of early childhood education programs and standards; and provided for an accountability system for early childhood education programs. The purpose of Bulletin 140 is to establish the duties and responsibilities of the early childhood care and education network, local community networks and community network lead agencies, define kindergarten readiness, and create a uniform assessment and accountability system for publicly-funded early childhood care and education sites and community networks that includes a performance profile indicative of performance.

This Declaration of Emergency, effective July 1, 2015, will remain in effect for a period of 120 days. The unified quality and improvement system will launch with a learning year in 2015-2016 whereby every early childhood site and community network will receive a practice performance profile. All publicly-funded early childhood programs will be required to participate, but there will be no funding or licensing consequences attached to the practice performance rating.

§509. Performance Rating Calculations for Publicly-Funded Sites

A. The performance rating for each publicly-funded site shall be based on the average of the domain level toddler and PreK observation results from the fall and spring observation periods for all toddler and PreK classrooms within the site.

1. BESE may include a weight for improvement beginning with the 2016-2017 school year.

1. In calculating the performance rating, the department shall replace domain level results from classroom observations conducted by community networks with the domain level results from observations conducted by the department's third-party contractors for any single domain in which the results differ by more than one point

and shall calculate the performance rating using the replaced results.

2. The department shall monitor the domain level observation results of classroom observations conducted by community networks for each publicly-funded site, including by observer, and domain level observation results conducted by the department's third-party contractor for each publicly-funded site.

a. For the 2015-2016 learning year, if the observation results conducted by community networks are consistently different by more than one point from observation results conducted by the department's third-party contractors, the department may replace all of the community network's observation results for a publicly-funded site with the results from the department's third-party contractors, including those results that do not differ by at least one point.

b. The department shall review results from the 2015-2016 learning year and recommend policy to BESE for 2016-2017 and beyond.

D. The performance rating for each site shall be based on the following numerical scale:

1. 6.0-7.0—excellent;
2. 3.0-5.99—proficient;
3. 1.0-2.99—needs improvement.

E. The numerical scale and performance rating shall be used for each CLASS® domain and for the overall performance rating.

F. BESE may transition to a five-level rating scale beginning with the 2017-2018 school year.

G. BESE shall review the overall rating calculation, including but not limited to data collected on the informational metrics of best practices, prior to the 2016-2017 school year and determine whether additional factors should be added to the rating calculation.

2. An equitable access score for four-year-olds shall be 50 percent of the community network performance rating.
3. BESE may include a weight for improvement on equitable access beginning with the 2016-2017 school year.

B. The CLASS® observation results shall be determined by averaging the results of all fall and spring domain level toddler and PreK observation results for all toddler and PreK classrooms within the community network.

1. Any classroom in a site that does not have the observations required in §503, or has not had all observation results reported, shall have a score of one assigned to each missing CLASS® domain. The score of one for missing observation or not-reported results shall be included in the performance rating calculation for the community network and the number of missing or not-reported observation results shall be reported on the community network's performance profile.

a. Lead agencies may be subject to termination as provided in §309.G for incomplete observations or observation results not reported.

2. The department shall compare the domain level results from observations of classrooms conducted by the department's third-party contractors to the domain level results from observations conducted by community network for each publicly-funded site.

a. In calculating the performance rating, the department shall replace domain level results from classroom observations conducted by community network with the domain level results from observations conducted by the department's third-party contractor for any single domain in which the results differ by more than one point and shall calculate the performance rating using the replaced results.

b. The department shall monitor domain level observation results of classroom observations conducted by community network for each publicly-funded site, including by observer, and domain level observation results conducted by the department's third-party contractors for each publicly-funded site.

i. For the 2015-2016 learning year, if the observation results conducted by a community network are consistently different by more than one point from observation results conducted by the department's third-party contractor, the department may replace all of the community network's observation results for a publicly-funded site with the results from the department's third-party contractor for that site, including those results that do not differ by at least one point.

ii. The department shall review results from the 2015-2016 school learning year and recommend policy to BESE for 2016-2017 and beyond.

C. The equitable access score shall be determined by calculating the access achieved by the community network for all at-risk four-year-old children in the community network coverage area. Points are earned on a seven point scale according to:

Percentage of At-Risk Four-Year-Olds Served	Points
95-100%	7
90-94.9%	6
85-89.9%	5
80-84.9%	4
75-79.9%	3
70-74.9%	2
0-69.9%	1

D. The performance rating for each community network shall be based on the following numerical scale:

1. 6.0-7.0—excellent;
2. 3.0-5.99—proficient;
3. 1.0-2.99—needs improvement.

E. The numerical scale and performance rating shall be used for reporting each CLASS® domain and the overall performance rating.

F. BESE may transition to a five level rating scale beginning with the 2017-2018 academic year.

G. BESE shall review the overall rating calculation, including but not limited to data collected on the informational metrics of best practices, prior to the 2016-

§513. Informational Metrics of Best Practices

A. Informational metrics are measures of a publicly-funded site and a community network’s use of the following early childhood care and education best practices.

1. Child Assessment that Informs Instruction

a. Ready to Assess. Publicly-funded sites ensure all lead teachers have certification of reliability as provided by the assessment creator for each school year.

b. Ongoing Assessment. Publicly-funded sites ensure all publicly-funded children receive completed assessments in October, February, and May. Publicly-funded sites shall obtain approval from the department prior to using child assessment tools different from the assessment tool provided by the department.

c. Assessing Accurately. Publicly-funded sites ensure there is an assessment portfolio for every publicly-funded child that provides evidence of the assessment rating for that school year.

2. Investment in Quality Measures

a. Teacher/Child Ratios. Publicly-funded sites maintain teacher/child ratios based on the age of children that are at or better than the minimum standards required in BESE *Bulletin 137—Louisiana Early Learning Center Licensing Regulations*.

i. To achieve gold level ratios, publicly-funded sites use the following teacher/child ratios and group sizes.

Age	Teacher/Child Ratio	Maximum Group Size
Birth to 1 year	1:4	8
1 year to 2 years	1:4	8
2 years to 3 years	1:6	12
3 years to 4 years	1:8	16
4 years to 5 years	1:10	20

a. Community networks ensure teachers have access to supports to address their professional development needs and aid them in supporting children’s learning and development.

b. Community networks and publicly-funded sites ensure children are prepared for kindergarten.

B. The performance profile shall report the publicly-funded site and community network’s use of the best practices identified in Subsection A by reporting the following informational metrics:

1. child assessment that informs instruction:

a. ready to assess—the percent of reliable lead teachers in each site and community network;

b. ongoing assessment—the percent of publicly-funded children who receive at least three assessments per school year in each program and community network; and

c. assessing accurately—the level to which assessment portfolios substantiate the assessment ratings for publicly-funded children in each site and community network;

2. investment in quality measures:

a. teacher/child ratios—the level of ratios used: gold, silver, or bronze;

b. prepared teachers—the percent of lead teachers holding varying levels of academic credentials and teacher certification for each site and community network; and

DECLARATION OF EMERGENCY

Inpatient Hospital Services—Non-Rural,
Non-State Hospitals
Reinstatement of Additional Payments for
Hemophilia Blood Products
(LAC 50:V.965)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 50:V.965 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1), et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Office of the Secretary, Bureau of Health Services Financing adopted provisions governing the reimbursement methodology for inpatient hospital services rendered by non-rural, non-state acute care hospitals to provide additional reimbursements to certain hospitals for the extraordinary costs incurred in the purchase of blood products for Medicaid recipients who have been diagnosed with hemophilia (*Louisiana Register, Volume 34, Number 10*) and other rare bleeding disorders (*Louisiana Register, Volume 35, Number 4*).

As a result of a budget shortfall in state fiscal year 2015, the Department of Health and Hospitals, Bureau of Health Services Financing promulgated an Emergency Rule which amended the provisions governing the reimbursement methodology for inpatient hospital services rendered by non-rural, non-state hospitals to eliminate the additional

reimbursements for hemophilia blood products purchased by hospitals (*Louisiana Register*, Volume 41, Number 3).

House Bill 1 of the 2015 Regular Session of the Louisiana Legislature allocated funding to the department to reinstate the additional reimbursements for hemophilia related blood products. The department hereby amends the provisions governing the reimbursement methodology for inpatient hospital services rendered by non-rural, non-state hospitals to reinstate reimbursements for costs incurred in the purchase of blood products for certain Medicaid recipients diagnosed with, and receiving inpatient treatment for, hemophilia.

This Emergency Rule is being promulgated to avoid imminent peril to the public health, safety and welfare of Medicaid recipients by ensuring that they have access to medically necessary hospital services and medications for the treatment of hemophilia. It is estimated that the implementation of this Emergency Rule will increase expenditures for inpatient hospital services by approximately \$300,000 for state fiscal year 2015-2016.

Effective July 1, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the reimbursement methodology for inpatient hospital services rendered by non-rural, non-state hospitals in order to reinstate additional reimbursements for hemophilia blood products.

DECLARATION OF EMERGENCY

Nursing Facilities
Reimbursement Methodology
(LAC 50:II.20001)

The Department of Health and Hospitals, Bureau of Health Services Financing amends LAC 50:II.20001 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing provides reimbursement to nursing facilities, through vendor payments, for services rendered to Medicaid-eligible individuals who reside in nursing facilities.

For state fiscal year (SFY) 2015-16, state general funds were required to continue nursing facility rates at the rebased level. Because of the fiscal crisis facing the state, the state general funds were not available to sustain the increased rates. Consequently, the department now proposes to amend the provisions governing the reimbursement methodology for nursing facilities in order to suspend the provisions of LAC 50:II.Chapter 200, and to impose provisions to ensure that the rates in effect do not increase for the SFY 2016 rating period.

This action is being taken to avoid a budget deficit in the Medical Assistance Program. It is estimated that implementation of this Emergency Rule will have no fiscal impact to the Medicaid Program for state fiscal year 2015-2016.

Effective July 11, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the reimbursement methodology for nursing facilities.

Title 50

PUBLIC HEALTH—MEDICAL ASSISTANCE

Part II. Nursing Facilities

Subpart 5. Reimbursement

Chapter 200. Reimbursement Methodology

§20001. General Provisions

A. Definitions

Administrative and Operating Cost Component—the portion of the Medicaid daily rate that is attributable to the general administration and operation of a nursing facility.

Assessment Reference Date—the date on the minimum data set (MDS) used to determine the due date and delinquency of assessments. This date is used in the case-mix reimbursement system to determine the last assessment for each resident present in the facility and is included in the quarterly case-mix report.

Base Resident-Weighted Median Costs and Prices—the resident-weighted median costs and prices calculated in accordance with §20005 of this Rule during rebase years.

Calendar Quarter—a three-month period beginning January 1, April 1, July 1, or October 1.

Capital Cost Component—the portion of the Medicaid daily rate that is:

- a. attributable to depreciation;
- b. capital related interest;
- c. rent; and/or
- d. lease and amortization expenses.

Care Related Cost Component—the portion of the Medicaid daily rate that is attributable to those costs indirectly related to providing clinical resident care services to Medicaid recipients.

Case Mix—a measure of the intensity of care and services used by similar residents in a facility.

Case-Mix Index—a numerical value that describes the resident's relative resource use within the groups under the resource utilization group (RUG-III) classification system, or its successor, prescribed by the department based on the resident's MDS assessments. Two average CMIs will be determined for each facility on a quarterly basis, one using all residents (the facility average CMI) and one using only Medicaid residents (the Medicaid average CMI).

Case-Mix MDS Documentation Review (CMDR)—a review of original legal medical record documentation on a randomly selected MDS assessment sample. The original legal medical record documentation supplied by the nursing facility is to support certain reported values that resulted in a specific RUG classification. The review of the documentation provided by the nursing facility will result in the RUG classification being supported or unsupported.

Cost Neutralization—refers to the process of removing cost variations associated with different levels of resident case mix. Neutralized cost is determined by dividing a facility's per diem direct care costs by the facility cost report period case-mix index.

Delinquent MDS Resident Assessment—an MDS assessment that is more than 121 days old, as measured by the assessment reference date (ARD) field on the MDS.

Direct Care Cost Component—the portion of the Medicaid daily rate that is attributable to:

- a. registered nurse (RN), licensed practical nurse (LPN) and nurse aide salaries and wages;
- b. a proportionate allocation of allowable employee benefits; and
- c. the direct allowable cost of acquiring RN, LPN and nurse aide staff from outside staffing companies.

Facility Cost Report Period Case-Mix Index—the average of quarterly facility-wide average case-mix indices, carried to four decimal places. The quarters used in this average will be the quarters that most closely coincide with the facility's cost reporting period that is used to determine the medians. This average includes any revisions made due to an on-site CMDR.

Example: A January 1, 2011-December 31, 2011 cost report period would use the facility-wide average case-mix indices calculated for March 31, 2011, June 30, 2011, September 30, 2011 and December 31, 2011.

Facility-Wide Average Case-Mix Index—the simple average, carried to four decimal places, of all resident case-mix indices based on the last day of each calendar quarter. If a facility does not have any residents as of the last day of a calendar quarter or the average resident case-mix indices appear invalid due to temporary closure or other circumstances, as determined by the department, a statewide average case-mix index using occupied and valid statewide facility case-mix indices may be used.

Final Case-Mix Index Report (FCIR)—the final report that reflects the acuity of the residents in the nursing facility on the last day of the calendar quarter, referred to as the point-in-time.

Index Factor—will be based on the *Skilled Nursing Home without Capital Market Basket Index* published by Data Resources Incorporated (DRI-WEFA), or a comparable index if this index ceases to be published.

Minimum Data Set (MDS)—a core set of screening and assessment data, including common definitions and coding categories that form the foundation of the comprehensive assessment for all residents of long-term care facilities certified to participate in the Medicaid Program. The items in the MDS standardize communication about resident problems, strengths, and conditions within facilities, between facilities, and between facilities and outside agencies. The Louisiana system will employ the current MDS assessment required and approved by the Centers for Medicare and Medicaid Services (CMS).

MDS Supportive Documentation Guidelines—the department's publication of the minimum medical record documentation guidelines for the MDS items associated with the RUG-III or its successor classification system. These guidelines shall be maintained by the department and updated and published as necessary.

Pass-Through Cost Component—includes the cost of property taxes and property insurance. It also includes the provider fee as established by the Department of Health and Hospitals.

Preliminary Case Mix Index Report (PCIR)—the preliminary report that reflects the acuity of the residents in the nursing facility on the last day of the calendar quarter.

Rate Year—a one-year period from July 1 through June 30 of the next calendar year during which a particular set of rates are in effect. It corresponds to a state fiscal year.

Resident-Day-Weighted Median Cost—a numerical value determined by arraying the per diem costs and total

actual resident days of each nursing facility from low to high and identifying the point in the array at which the cumulative total of all resident days first equals or exceeds half the number of the total resident days for all nursing facilities. The per diem cost at this point is the resident-day-weighted median cost.

RUG-III Resident Classification System—the resource utilization group used to classify residents. When a resident classifies into more than one RUG-III, or its successor's group, the RUG-III or its successor's group with the greatest CMI will be utilized to calculate the facility average CMI and Medicaid average CMI.

Summary Review Results Letter—a letter sent to the nursing facility that reports the final results of the case-mix MDS documentation review and concludes the review.

- a. The summary review results letter will be sent to the nursing facility within 10 business days after the final exit conference date.

Supervised Automatic Sprinkler System—a system that operates in accordance with the latest adopted edition of the National Fire Protection Association's *Life Safety Code*. It is referred to hereafter as a fire sprinkler system.

Two-Hour Rated Wall—a wall that meets American Society for Testing and Materials International (ASTM) E119 standards for installation and uses two-hour rated sheetrock.

Unsupported MDS Resident Assessment—an assessment where one or more data items that are used to classify a resident pursuant to the RUG-III, 34-group, or its successor's resident classification system is not supported according to the MDS supporting documentation guidelines and a different RUG-III, or its successor, classification would result; therefore, the MDS assessment would be considered "unsupported."

B. Effective for the rate period of July 1, 2015 through June 30, 2016, the department shall suspend the provisions of LAC 50:II.Chapter 200 governing the reimbursement methodology for nursing facilities and imposes the following provisions governing reimbursements for nursing facility services.

1. During this time period, no inflation factor will be applied to the base resident day weighted medians and prices calculated as of July 1, 2014.

2. All costs and cost components that are required by rule to be trended forward will only be trended forward to the midpoint of the 2015 state fiscal year (December 31, 2014).

3. The base capital per square foot value, land value per square foot, and per licensed bed equipment value utilized in the calculation of the fair rental value (FRV) component will be set equal to the value of these items as of July 1, 2014.

4. Base capital values for the Bed Buy-Back program (§20012) purposes will be set equal to the value of these items as of July 1, 2014.

5. Nursing facility providers will not have their weighted age totals for the FRV component calculation purposes increased by one year as of July 1, 2015.

6. As of the July 1, 2016 rate setting, nursing facility provider weighted age totals for the FRV component calculation purposes will be increased by two years to

account for the suspended year of aging occurring as of the July 1, 2015 rating period.

Nursing Facilities
Reimbursement Methodology
Supplemental Payments
(LAC 50:II.20029)

The Department of Health and Hospitals, Bureau of Health Services Financing adopts LAC 50:II.20029 in the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Department of Health and Hospitals, Bureau of Health Services Financing provides Medicaid reimbursement to non-state, government-owned or operated nursing facilities for long-term care services provided to Medicaid recipients. The department promulgated an Emergency Rule which amended the provisions governing the reimbursement methodology for nursing facilities to adopt provisions for supplemental Medicaid payments to qualifying non-state, government-owned or operated nursing facilities that enter into an agreement with the department (*Louisiana Register*, Volume 40, Number 12). This Emergency Rule is being promulgated to continue the provisions of the November 22, 2014 Emergency Rule. This action is being taken to promote the health and welfare of Medicaid recipients, ensure sufficient provider participation in the Nursing Facilities Program, and maintain adequate recipient access to nursing facility services.

Effective July 22, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing amends the provisions governing the reimbursement methodology for nursing facilities to establish supplemental Medicaid payments for non-state, government-owned and operated nursing facilities.

Title 50

PUBLIC HEALTH—MEDICAL ASSISTANCE

Part II. Nursing Facilities

Subpart 5. Reimbursement

Chapter 200. Reimbursement Methodology

§20029. Supplemental Payments

A. Effective for dates of service on or after November 22, 2014, any nursing facility that is owned or operated by a non-state governmental entity may qualify for a Medicaid supplemental payment adjustment, in addition to the uniform Medicaid rates paid to nursing facilities.

B. The supplemental Medicaid payment to a non-state, government-owned or operated nursing facility shall not exceed the facility's upper payment limit (UPL) pursuant to 42 CFR 447.272.

C. Payment Calculations. The Medicaid supplemental payment adjustment shall be calculated as follows. For each state fiscal year (SFY), the Medicaid supplemental payment shall be calculated as the difference between:

1. the amount that the department reasonably estimates would have been paid to nursing facilities that are owned or operated by a non-state governmental entity using the Medicare resource utilization groups (RUGs) prospective payment system. For each Medicaid resident that is in a nursing facility on the last day of a calendar quarter, the minimum data set (MDS) assessment that is in effect on that date is classified using the Medicare RUGs system. The Medicare rate applicable to the Medicare RUG, adjusted by the Medicare geographic wage index, equals the Medicaid resident's estimated Medicare rate. A simple average Medicare rate is determined for each nursing facility by summing the estimated Medicare rate for each Medicaid resident in the facility and dividing by total Medicaid residents in the facility; and

2. the Medicaid per diem rate for nursing facilities that are owned or operated by a non-state governmental entity. The Medicaid rate shall be adjusted to include laboratory, radiology, and pharmacy services to account for program differences in services between Medicaid and Medicare. The statewide average of laboratory, radiology, and pharmacy services is calculated using Medicaid cost report data.

D. Each participating nursing facility's upper payment limit (UPL) gap shall be determined as the difference between the estimated Medicare rate calculated in §20029.C.1 and the adjusted Medicaid rate calculated in §20029.C.2.

1. Each facility's UPL gap is multiplied by the Medicaid days to arrive at its supplemental payment amount. Medicaid days are taken from the Medicaid cost report.

E. Frequency of Payments and Calculations

1. For each calendar quarter, an estimated interim supplemental payment will be calculated as described in this Section utilizing the latest Medicare RUGs and payment rates and Medicaid cost reports and available Medicaid payment rates. Payments will be made to each nursing facility that is owned or operated by a non-state governmental entity and that has entered into an agreement with the department to participate in the supplemental payment program.

2. Following the completion of the state's fiscal year, the final supplemental payment amount for the state fiscal year just ended will be calculated. These calculations will be based on the final Medicare RUGs and payment rates and the most recently reviewed Medicaid cost reports and Medicaid payment rates that cover the just ended state fiscal year period. The final supplemental payment calculations will be compared to the estimated interim supplemental payments and the difference if positive will be paid to the non-state governmental entity, and if negative, collected from the non-state governmental entity.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254, R.S. 46:2742, and Title XIX of the Social Security Act.

The department promulgated an Emergency Rule which amended the provisions governing long-term personal care services (LT-PCS) in order to adopt requirements which mandate that LT-PCS providers must utilize the electronic visit verification (EVV) system designated by the department for automated scheduling, time and attendance tracking, and billing for long-term personal care services (*Louisiana Register*, Volume 41, Number 3). This Emergency Rule is being promulgated to continue the provisions of the April 1, 2015 Emergency Rule.

This action is being taken to promote the health and welfare of persons with a functional impairment by assuring that they receive the services they need, and to ensure that these services are rendered in an efficient and cost-effective manner.

Effective July 31, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing and the Office of Aging and Adult Services amend the provisions governing long-term personal care services to establish requirements for the use of an EVV system.

This Emergency Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:953(B)(1) et seq., and shall be in effect for the maximum period allowed under the Act or until adoption of the final Rule, whichever occurs first.

The Patient Protection and Affordable Care Act (PPACA), U.S. Public Law 111-148, and 111-152 directed states to establish a Recovery Audit Contractor (RAC) program to audit payments to Medicaid providers. Act 568 of the 2014 Regular Session of the Louisiana Legislature directed the Department of Health and Hospitals to implement a Recovery Audit Contractor program. In compliance with the Patient Protection and Affordable Care Act (PPACA) and Act 568, the department promulgated an Emergency Rule which adopted provisions to establish the RAC program (*Louisiana Register*, Volume 40, Number 11). This Emergency Rule is being promulgated to continue the provisions of the November 20, 2014 Emergency Rule. This action is being taken to avoid federal sanctions.

Effective July 20, 2015, the Department of Health and Hospitals, Bureau of Health Services Financing adopts provisions establishing the Recovery Audit Contractor program.

§8505. Contractor Functions

A. Notwithstanding any law to the contrary, the RAC shall perform all of the following functions.

1. The RAC shall ensure it is reviewing claims within three years of the date of its initial payment. For purposes of this requirement, the three year look back period shall commence from the beginning date of the relevant audit.

2. The RAC shall send a determination letter concluding an audit within 60 days of receipt of all requested materials from a provider.

3. For any records which are requested from a provider, the RAC shall ensure proper identification of which records it is seeking. Information shall include, but is not limited to:

- a. recipient name;
- b. claim number;
- c. medical record number (if known); and
- d. date(s) of service.

B. Pursuant to applicable statute, the RAC program's scope of review shall exclude the following:

1. all claims processed or paid within 90 days of implementation of any Medicaid managed care program that relates to said claims. This shall not preclude review of claims not related to any Medicaid managed care program implementation;

2. claims processed or paid through a capitated Medicaid managed care program. This scope restriction shall not prohibit any audits of per member per month payments from the department to any capitated Medicaid managed care plan utilizing such claims; and

§8507. Reimbursement and Recoupment

A. The department has in place, and shall retain, a process to ensure that providers receive or retain the appropriate reimbursement amount for claims within any look back period in which the RAC determines that services delivered have been improperly billed, but reasonable and necessary. It shall be the provider's responsibility to provide documentation to support and justify any recalculation.

B. The RAC and the department shall not recoup any overpayments identified by the RAC until all informal and formal appeals processes have been completed. For purposes of this Section, a final decision by the Division of Administrative Law shall be the conclusion of all formal appeals processes. This does not prohibit the provider from seeking judicial review and any remedies afforded thereunder.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 41:

§8511. Records Requests

A. The RAC shall limit records requests to not more than 1 percent of the number of claims filed by the provider for the specific service being reviewed in the previous state fiscal year during a 90 day period. The 1 percent shall be further limited to 200 records. For purposes of this Chapter, each specific service identified for review within the

requested time period will be considered a separate and distinct audit.

B. The provider shall have 45 calendar days to comply with any records request unless an extension is mutually agreed upon. The 45 days shall begin on the date of receipt of any request.

1. *Date of Receipt*—two business days from the date of the request as confirmed by the post office date stamp.

C. If the RAC demonstrates a significant provider error rate relative to an audit of records, the RAC may make a request to the department to initiate an additional records request relative to the issue being reviewed for the purposes of further review and validation.

1. The provider shall be given an opportunity to provide written objections to the secretary or his/her designee of any subsequent records request. Decisions by the secretary or his/her designee in this area are final and not subject to further appeal or review.

2. This shall not be an adverse determination subject to the Administrative Procedure Act process.

3. A significant provider error rate shall be defined as 25 percent.

4. The RAC shall not make any requests allowed above until the time period for the informal appeals process has expired.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254, and Title XIX of the Social Security Act.

§8513. Audits and Records Submission

A. The RAC shall utilize provider self-audits only if mutually agreed to by the provider and the RAC.

B. If the provider is determined to be a low-risk provider, the RAC shall schedule any on-site audits with advance notice of not less than 10 business days. The RAC shall make a reasonable good-faith effort to establish a mutually agreed upon date and time, and shall document such efforts.

C. In association with an audit, providers shall be allowed to submit records in electronic format for their convenience. If the RAC requires a provider to produce records in any non-electronic format, the RAC shall make reasonable efforts to reimburse the provider for the reasonable cost of medical records reproduction consistent with 42 CFR 476.78.

1. The cost for medical record production shall be at the current federal rate at the time of reimbursement to the provider. This rate may be updated periodically, but in no circumstance shall it exceed the rate applicable under Louisiana statutes for public records requests.

2. Any costs associated with medical record production may be applied by the RAC as a credit against any overpayment or as a reduction against any underpayment. A tender of this amount shall be deemed a reasonable effort.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254, and Title XIX of the Social Security Act.

HISTORICAL NOTE: Promulgated by the Department of Health and Hospitals, Bureau of Health Services Financing, LR 41:

§8515. Appeals Process

A. A provider shall have a right to an informal and formal appeals process for adverse determinations made by the RAC.

B. The informal appeals process shall be conducted as follows.

1. Beginning on the date of issuance of any initial findings letter by the RAC, there shall be an informal discussion and consultation period. During this period the provider and RAC may communicate regarding any audit determinations.

2. Within 45 calendar days of receipt of written notification of an adverse determination from the RAC, a provider shall have the right to request an informal hearing relative to such determination. The department's Program Integrity Section shall be involved in this hearing. Any such request shall be in writing and the date of receipt shall be deemed to be two days after the date of the adverse determination letter.

3. The informal hearing shall occur within 30 days of receipt of the provider's request.

4. At the informal hearing the provider shall have the right to present information orally and in writing, the right to present documents, and the right to have the department and the RAC address any inquiry the provider may make concerning the reason for the adverse determination. A provider may be represented by an attorney or authorized representative, but any such individual must provide written notice of representation along with the request for informal hearing.

5. The RAC and the Program Integrity Section shall issue a final written decision related to the informal hearing within 15 calendar days of the hearing closure.

C. Within 30 days of issuance of an adverse determination of the RAC, if an informal hearing is not requested or there is a determination pursuant to an informal hearing, a provider may request an administrative appeal of the final decision by requesting a hearing before the Division of Administrative Law. A copy of any request for an administrative appeal shall be filed contemporaneously with the Program Integrity Section. The date of issuance of a final decision or determination pursuant to an informal hearing shall be two days from the date of such decision or determination.

D. The department shall report on its website the number of adverse determinations overturned on informal or formal appeals at the end of the month for the previous month.

E. If the department or the Division of Administrative Law hearing officer finds that the RAC determination was unreasonable, frivolous or without merit, then the RAC shall reimburse the provider for its reasonable costs associated with the appeals process. Reasonable costs include, but are not limited to, cost of reasonable attorney's costs and other reasonable expenses incurred to appeal the RAC's determination. The fact that a decision has been overturned or partially overturned via the appeals process shall not mean the determination was without merit.

1. adverse determination is not substantiated by applicable department policy or guidance and the RAC fails to utilize guidance provided by the department; or

2. RAC fails to follow any programmatic or statutory rules.

B. If more than 25 percent of the RAC's adverse determinations are overturned on informal or formal appeal, the department may impose a monetary penalty up to 10 percent of the cost of the claims to be awarded to the providers of the claims inappropriately determined, or a monetary penalty up to 5 percent of the RAC's total collections to the department.

AUTHORITY NOTE: Promulgated in accordance with R.S. 36:254, and Title XIX of the Social Security Act.

The state health officer, acting through the Department of Health and Hospitals, Office of Public Health (DHH-OPH), pursuant to the rulemaking authority granted by R.S. 40:4(A)(8) and (13) and in accordance with the intent of Act 573 of 2014, hereby adopts the following Emergency Rule to prevent an imminent peril to the public health and safety. This Rule is being promulgated in accordance with the Administrative Procedure Act (R.S. 49:950 et seq.).

The state health officer, through DHH-OPH, finds it necessary to promulgate an Emergency Rule effective July 1, 2015. This Emergency Rule increases the minimum disinfection residual levels that are required for public water systems. Among other items addressed as well, the Rule increases the number of residual measurements taken monthly by 25 percent. The Rule clarifies that daily residual measurements are required at the point of maximum residence time in the distribution system and records of chlorine residual measurements taken in the distribution system, besides from the treatment plant(s) itself, shall be recorded and retained by the public water system as required by the National Primary Drinking Water Regulations (as this term is defined in Part XII). This Rule is based upon scientific data and recommendations from the federal Centers for Disease Control and Prevention (CDC) relative to the control of the *Naegleria fowleri* (brain-eating amoeba)

parasite which has, thus far, been found in four public water systems within Louisiana. Unless rescinded or terminated earlier, this Emergency Rule shall remain in effect for the maximum period authorized under state law. This Emergency Rule may be amended as additional research and science data becomes available.

A. A public water system not holding a disinfection variance on November 6, 2013 shall comply with the requirements of §355.A, §357, §367.C, and §367.G of this Part on the later of:

1. February 1, 2014; or
2. the expiration date of any additional time for compliance beyond February 1, 2014 granted by the state health officer.

A request for additional time may be submitted in writing prior to February 1, 2014 only, and shall provide detailed justification and rationale for the additional time requested. The state health officer may grant such additional time if significant infrastructure improvements are required to achieve compliance with said requirements.

B. A public water system holding a disinfection variance on November 6, 2013 shall comply with one of the following options by February 1, 2014:

1. implement continuous disinfection that complies with the requirements of §355.A, §357, §367.C, and §367.G of this Part;
2. request additional time for complying with the requirements of §355.A, §357, §367.C, and §367.G of this Part by submitting a written request, if significant infrastructure improvements are required to achieve compliance therewith or extraordinary circumstances exist with regard to the introduction of disinfection to the system. Such written request shall provide detailed justification and rationale for the additional time requested;
3. (This option shall be available only if the public water system's potable water distribution piping is utilized for onsite industrial processes.) notify the state health officer in writing that in lieu of implementing continuous disinfection, the PWS has provided, and will thereafter provide on a quarterly basis, notification to all system users, in a manner compliant with §1907 of this Part, that the system does not disinfect its water. The notification shall state that because the water is not disinfected, the water quality is unknown in regard to the *Naegleria fowleri* amoeba. A public water system selecting this option must sign an acknowledgement form, to be developed by the state health officer, stating that the public water system understands the risks presented by the lack of disinfection and that the public water system maintains responsibility for ensuring the safety of its water for end users; or

4. (This option shall be available only if the public water system's potable water distribution piping is utilized for onsite industrial processes.) request approval of an

When a variance is revoked, the system shall install mandatory continuous disinfection as stated in §355 of this Part within the times specified in a compliance schedule submitted to and approved by the state health officer. Such schedule shall be submitted within 10 days of receipt of notice of revocation.

B. Except for variances held by qualifying public water systems that comply with §361.B.3 of this Part or receive approval of an alternate plan under §361.B.4 of this Part, any variance concerning the mandatory disinfection requirements of §355 and/or §357 of this Part held by a public water system as of November 6, 2013 shall be automatically revoked on the later of:

1. February 1, 2014;
2. the expiration date of any additional time for compliance granted by the state health officer under §361.B.2 of this Part; or
3. the denial of a request for approval of an alternate plan submitted under §361.B.4 of this Part.

§367. Disinfectant Residual Monitoring and Record Keeping
[formerly paragraph 12:021-7]

A. Disinfectant Residual Monitoring in Treatment Plant. A public water system (PWS) shall measure the residual disinfectant concentration in water being delivered to the distribution system at least once per day.

B. Disinfectant Residual Monitoring in Distribution System. A PWS shall measure the residual disinfectant concentration within the distribution system:

1. by sampling at the same points in the distribution system and at the same times that samples for total coliforms are required to be collected by the PWS under this Part;
2. by sampling at an additional number of sites calculated by multiplying 0.25 times the number of total coliform samples the PWS is required under this Part to take on a monthly or quarterly basis, rounding any mixed (fractional) number product up to the next whole number. These additional residual monitoring samples shall be taken from sites in low flow areas and extremities in the distribution system at regular time intervals throughout the applicable monthly or quarterly sampling period; and
3. by sampling at the site that represents the maximum residence time (MRT) in the distribution system at least once per day.

C. A PWS shall increase sampling to not less than daily at any site in the distribution system that has a measured disinfectant residual concentration of less than 0.5 mg/l free chlorine or 0.5 mg/l chloramine residual (measured as total chlorine) until such disinfectant residual concentration is achieved at such site.

D. The records of the measurement and sampling required under Subsections A and B of this Section shall be maintained on forms approved by the state health officer and shall be retained as prescribed in the National Primary Drinking Water Regulations, and shall be made available for review upon request by the state health officer.

E. Each PWS shall submit a written monitoring plan to the state health officer for review and approval. The monitoring plan shall be on a form approved by the state health officer and shall include all the total coliform and disinfectant residual monitoring sites required under this Section and §903.A of this Part. Each PWS shall also submit a map of the distribution system depicting all total coliform and disinfectant residual monitoring sites required under this Section. The sites shall be identified along with a 911 street address (if there is no 911 street address, then the latitude/longitude coordinates shall be provided). A PWS in existence as of November 6, 2013 shall submit such a monitoring plan no later than January 1, 2014.

F. Chlorine residuals shall be measured in accordance with the analytical methods set forth in §1105.C of this Part.

G. Where a continuous chloramination (i.e., chlorine with ammonia addition) method is used, a nitrification control plan shall be developed and submitted to the state health officer. A PWS in existence as of November 6, 2013 shall submit such a nitrification control plan no later than March 1, 2014.

§903. Coliform Routine Compliance Monitoring
[formerly Coliform Routine Compliance Monitoring of Appendix C]

A. Public water systems shall collect routine total coliform samples at sites which are representative of water throughout the distribution system in accordance with a written monitoring plan approved by the state health officer. Each public water system (PWS) shall submit a written monitoring plan on a form approved by the state health officer. The monitoring plan shall include a minimum number of point of collection (POC) monitoring sites calculated by multiplying 1.5 times the minimum number of samples required to be routinely collected in accordance with Subsections C and D of this Section, rounding any mixed (fractional) number product up to the next whole number. The monitoring plan shall include a map of the system with each POC sampling site identified along with a 911 street address (if there is no 911 street address, then the latitude/longitude coordinates shall be provided). In accordance with requirements of Subsection E of this Section, the plan shall also indicate how the PWS will

alternate routine sampling between all of the approved POC sampling sites.

B. - D. ...

E. Unless the state health officer specifies otherwise, the public water supply shall collect routine samples at regular time intervals throughout the month and shall alternate routine sampling between all of the approved POC sites. Routine samples shall not be collected from the same POC more than once per month.

Fully dressed Eurasian collared-doves and ringed turtle-doves (those without a fully feathered wing and head naturally attached to the carcass) shall be included in the aggregate bag.

Dove Hunting Zones: The state shall be divided into north and south dove hunting zones by the following boundary: Beginning at the Texas-Louisiana border on LA Highway 12; thence east along LA Highway 12 to its intersection with U.S. Highway 190; thence east along U.S. Highway 190 to its intersection with Interstate 12; thence east along Interstate 12 to its intersection with Interstate 10; thence east along Interstate 10 to the Mississippi state line.

A. Schools shall receive an annual 2013 SPS using the 150-point scale, as approved for the 2012-13 school year and as described in Chapters 3-6 of this bulletin.

B.1. In order to provide for a two-year baseline associated with new assessments in English language arts and mathematics, the LDE shall ensure that the distribution of school letter grades remains constant throughout this transition by assigning school letter grades for the 2013-2014, 2014-2015, and 2015-2016 school years based on the distribution of school letter grades by school type (e.g., K-8 v. combination v. high school) from the 2012-2013 school year.

a. If schools generally decline in performance scores, then the distributions (K-8, combination and high school) shall remain the same as in 2012-13 so as not to punish schools during the transition.

b. Any school or district that maintains or improves its annual performance score as compared to the 2012-13 performance scores shall not experience a decrease in its letter grade. Thus, if schools generally improve in performance scores, then the distributions shall improve as they would in any other year.

c. If, in implementing consistent distributions of letter grades, more than one school of the same type (e.g., K-8 school, combination school, or high school) earns the same school performance score (i.e., they are “tied”), then all such schools shall be awarded the same letter grade. For example, if a school earning a school performance score of 84.9 in the 2014-2015 school year is awarded a letter grade of B, all other schools of the same type earning a school performance score of 84.9 in the 2014-2015 school year shall also receive a letter grade of B.

2. Prior to the creation of the transitional ninth grade, some schools were categorized as combination schools, rather than high schools, simply because they offered 8th grade courses to a select group of students ineligible for 9th grade. Such schools shall be classified as high schools and the 12-13 distributions shall be adjusted to reflect this shift.

C. By the fall of 2015, BESE shall determine, in consultation with the Accountability Commission, the timeline and benchmarks needed to gradually raise the standard for student proficiency such that the average student in a school or district with a letter grade of “A” achieves at least “mastery” (level 4) on state assessments no later than the 2024-2025 school year.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:10.1.

HISTORICAL NOTE: Promulgated by the Board of Elementary and Secondary Education, LR 39:2442 (September 2013), amended LR 40:760 (April 2014), LR 40:1314 (July 2014), LR 41:1263 (July 2015).

Chapter 5. Inclusion in Accountability

§519. Inclusion of Schools

A. All K-8 schools shall have a minimum of 40 testing units in any combination of LEAP, iLEAP, or LAA 1 assessments.

B. All 9-12 and combination schools shall have a minimum number of 40 units in any combination of graduation cohort membership and LEAP, iLEAP, LAA 1, or EOC assessments.

C. Each member of a cohort used to calculate a graduation index shall be counted as 4 units when determining the minimum number of units required calculating an SPS.

D. Inclusion of Indices

1. A school must have ten students in the graduation cohort to receive a the cohort graduation indices.

2. For schools with early graduates, an increasing grade configuration, and without cohort graduation members, ACT assessment scores shall be banked for the calculation of school performance scores until the accountability cycle associated with those early graduates, per cohort graduation policy.

Board of Elementary and Secondary Education

Bulletin 126—Charter Schools
(LAC 28:CXXXIX.518, 1303, 1503, 1703, 2709, and 2801)

In accordance with R.S. 49:950 et seq., the Administrative Procedure Act, the Board of Elementary and Secondary Education has amended *Bulletin 126—Charter Schools*: §518, BESE Pre-Opening Procedures Following Approval; §1303, Extension Review; §1503, Charter Renewal Process and Timeline; §1703, Revocation Proceedings; §2709, Enrollment of Students, Lottery, and Waitlist; and §2801, Transportation Requirements. The policy revisions set academic, financial, and organizational requirements that must be met before an existing Louisiana charter operator may open subsequent approved schools included in the original application of the operator; create transportation standards for BESE-authorized charter schools; and include technical edits and updates to timelines.

Title 28
EDUCATION

Part CXXXIX. Bulletin 126—Charter Schools

**Chapter 5. Charter School Application and Approval
Process**

**§518. BESE Pre-Opening Procedures Following
Approval**

A. Following charter application approval by BESE, approved nonprofit corporations must complete pre-opening requirements developed by the department prior to executing a charter contract and prior to opening a school.

B. The department must certify completion of the pre-opening requirements prior to the opening of the school.

C. A charter operator may open additional schools included in its approved charter application if the academic, financial, and organizational performance requirements in this section are met prior to the operator entering pre-opening for the subsequent approved school.

1. Charter schools currently operated by the charter operator shall meet specific academic criteria as described within this Paragraph.

a. Schools currently operating under the oversight of the charter operator shall meet either of the following academic performance criteria:

i. an average school performance score equivalent to a letter grade of C, or higher, calculated in a manner that correlates to the district performance score formula outlined in *Bulletin 111—The Louisiana School, District, and State Accountability System*; or

ii. an average of five or more points of growth per year from the school’s pre-assessment index, if available, for all schools awarded a T, D, or F letter grade.

b. If the charter operator contracts with a management organization, the state superintendent may consider the academic performance of all schools operating in Louisiana affiliated with the management organization in determining whether or not the charter operator is allowed to open a subsequent approved school.

c. The state superintendent may waive the academic performance criteria if likely new enrollees would otherwise predominantly be enrolled in schools performing at levels lower than or equivalent to the participating school.

2. The majority of the charter operator’s schools have received a “meets expectations” designation in the most recent evaluation of financial performance according to the charter school performance compact.

3. The majority of the charter operator’s schools have received a “meets expectations” designation in the most recent evaluation of organizational performance according to the charter school performance compact, and each school has no unresolved notices of concern or breach.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10), R.S. 17:3981, and R.S. 17:3983.

HISTORICAL NOTE: Promulgated by the Board of Elementary and Secondary Education in LR 37:870 (March 2011), amended LR 37:2385 (August 2011), LR 39:1432 (June 2013), LR 41:1263 (July 2015).

Chapter 13. Charter Term

§1303. Extension Review

A. ...

B. Each type 2, type 4, and type 5 charter school's extension review shall be used to determine if the school will receive a one-year extension, as follows.

1. Contract Extension

a. Each charter school shall be reviewed based on academic, financial, and legal and contractual performance data collected by the Department of Education. If such performance data reveal that the charter school is achieving the following goals and objectives, the board shall extend the duration of the charter for a maximum initial term of five years.

i. For the 2015 and beyond extension processes, a charter school shall:

(a). meet or approach expectations on the most recent evaluation in financial performance according to the charter school performance compact and a financial risk

assessment rating that has not been deemed to require “dialogue” as set forth in §1101.E; and

(b). have no violation of legal or contractual standards as defined in §1101.I.3; and

(c). meet one of the following student performance standards that aligns with the structure of the school:

(i). turnaround schools, schools qualified to receive a letter grade of “T” per Bulletin 111, §1105, school has earned a letter grade of “D” or higher based on performance data from the school’s third year of operation; or school has made an average of 5 or more points of growth per year of the charter contract (from the pre-assessment index to the last year of data);

(ii). non-turnaround schools, school has earned a letter grade of “D” or higher based on performance data from the school’s third year of operation;

(iii). alternative charter schools, schools approved by the department to use an alternative charter school extension and renewal framework, school has met the standards for extension from an alternative charter school extension and renewal framework.

2. - 3.b....

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10).

HISTORICAL NOTE: Promulgated by the Board of Elementary and Secondary Education in LR 34:1367 (July 2008), amended LR 37:2387 (August 2011), LR 38:751 (March 2012), repromulgated LR 38:1393 (June 2012), amended LR 38:3118 (December 2012), LR 39:1435 (June 2013), LR 39:3065 (November 2013), LR 40:1322 (July 2014), LR 41:1264 (July 2015).

Chapter 15. Charter Renewal

§1503. Charter Renewal Process and Timeline

A.

B. Student Performance

1. Each charter school is required to make demonstrable improvements in student performance over the term of its charter contract.

a. BESE will rely on data from the state’s assessment and accountability program as objective and verifiable measures of student achievement and school performance. Student performance is the primary indicator of school quality; therefore, BESE will heavily factor each charter school’s student performance data in all renewal decisions.

2. Consistent with the philosophy of rewarding strong performance and providing incentives for schools to strive for continual improvement, the renewal terms for BESE-authorized charter schools will be linked to each school’s letter grade (based on the school’s performance on the state assessment in the year prior to the renewal application) in accordance with the table that follows.

Maximum Charter Renewal Terms	
Letter Grades	Maximum Renewal Term
F	3 years
D	3 Years
C	6 Years
B	7 Years
A	10 years

3. A charter school in its initial term where fewer than 50 percent of its enrolled grades are testable under state

accountability will be eligible for a renewal term of three years.

4. For initial renewals during the 2015 and beyond renewal processes, a BESE-authorized charter school receiving a letter grade of “F” in the prior academic year will not be eligible for renewal, unless one of these conditions are met:

a. a charter school that by contract serves a unique student population where an alternate evaluation tool, including a BESE-approved alternative charter school extension and renewal framework, has been established between the charter operator and the board may be renewed for a term not to exceed five years;

b. a turnaround charter school that qualified to receive a letter grade of “T” per Bulletin 111, §1105, that has made an average of five or more points of growth per year of the charter contract (from the pre-assessment index to the last year of data).

5. For subsequent renewals during the 2015 and beyond renewal processes, a BESE-authorized charter school receiving a letter grade of “D” or “F” in the prior academic year will not be eligible for renewal, unless one of these conditions are met:

a. a charter school that by contract serves a unique student population where an alternate evaluation tool, including a BESE-approved alternative charter school extension and renewal framework, has been established between the charter operator and the board may be renewed for a term not to exceed five years;

b. a turnaround charter school that qualified to receive a letter grade of “T” per Bulletin 111, §1105, that has made an average of 5 or more points of assessment index growth per year of the charter contract.

6. If, in the state superintendent’s judgment, the non-renewal of a charter school that does not meet the criteria for renewal in its initial or subsequent charter term would likely require many students to attend lower performing schools, and the state superintendent recommends its renewal, the charter may be renewed for a term not to exceed three years. Prior to recommending such renewal, the state superintendent must demonstrate that efforts to find a new, high-quality operator for the school were unsuccessful.

C. - F.4. ...

G. Automatic Renewal of Charter Schools

1. A charter school which has met or exceeded for the three preceding school years the benchmarks established for it in accordance with the school and district accountability system, has demonstrated growth in student academic achievement for the three proceeding schools years, and has had no significant audit findings during the term of the charter agreement shall be deemed a high-performing school, and such school's charter shall be automatically renewed.

2. A charter school that meets the following conditions shall be automatically renewed and shall be exempted from the renewal process requirements listed in this Section, as appropriate:

a. has received a letter grade of A or B;

b. has demonstrated growth in student academic achievement as measured by an increasing school performance score over the three preceding school years;

c. has received a “meets expectations” designation in its most recent evaluation in organizational performance according to the charter school performance compact;

d. has received a “meets expectations” designation in its most recent evaluation in financial performance according to the charter school performance compact; and

e. has no outstanding notices of concern or breach.

3. The automatic renewal term shall be in line with the terms specified in Paragraph B.2 of this Section.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10), R.S. 17:3981, and R.S. 17:3992.

Chapter 17. Revocation

§1703. Revocation Proceedings

A. - A.4. ...

B. Revocation Hearing for BESE-Authorized Charter Schools

1. The charter operator shall have an opportunity for a hearing prior to the revocation of its charter.

2. All charter school revocation hearings shall be heard by the School Improvement and Turnaround Committee of BESE.

3. Following the Department of Education's recommendation to revoke a charter, BESE shall determine if it will commence a revocation proceeding.

§2709. Enrollment of Students, Lottery, and Waitlist

A. - I. ...

J. Type 5 charter schools transferred to the RSD pursuant to R.S. 17:10.5 and R.S. 17:10.7 and type 3B charter schools shall comply with any unified enrollment system established by the RSD for the parish or region where the charter school is located. The RSD may create any policies and procedures to implement a unified enrollment system not prohibited by this Chapter, and may conduct one or more central lotteries to enroll students at participating schools, and enroll students applying or requesting transfers after the application period has ended.

1. Upon request of a charter operator, the department shall allow an enrollment preference for students matriculating into eighth grade or below between two BESE-authorized charter schools operated by the same charter operator.

2. In addition, the Department of Education shall manage a pilot program wherein the department shall allow an enrollment preference for those students matriculating or transferring into ninth grade or above between eligible BESE-authorized charter schools for a limited percentage of

the seats in the charter school, to be determined by the department. The department shall develop an application process for participation in the pilot program which shall evaluate factors including the applying charter schools' past demonstration of success in preparing at-risk and low-performing students for college and/or career, and the submission of an innovative proposal to utilize the enrollment preference to further this success. The department shall collect relevant data on the pilot program in order to prepare a report to be presented by the state superintendent to BESE no later than January, at which time BESE shall consider the continuation of the pilot program based on the results of the report. The report shall include data and information including, but not limited to:

- a. the demographic and academic backgrounds of students utilizing the preference;
- b. the number and percentage of students who matriculated or transferred into participating schools;
- c. the number and percentage of students who were admitted to the school utilizing the enrollment preference; and
- d. the number and percentage of students attempting to enroll or transfer in the charter school who were ineligible to utilize the enrollment preference.

A. Each operator of a BESE authorized charter school shall offer free daily transportation to and from school to any student meeting both of the following conditions:

1. the student resides more than one mile from the school where the student is enrolled;
2. the student resides within the parish or local school district in which the school is physically located.

B. Charter operators shall submit school transportation plans to the LDE to ensure compliance with applicable laws and policies. The state superintendent shall set forth the process for transportation plan submission.

C. Charter operators having BESE authorized charter schools in operation during the 2015-2016 school year shall offer transportation to all eligible students no later than the beginning of the 2018-2019 school year. Charter operators having BESE authorized charter schools that begin operation in the 2016-2017 school year shall offer transportation upon opening.

D. The LDE shall develop a waiver process to exempt from this requirement any type 2 charter schools having a unique mission to serve students with exceptionalities, virtual schools, or other schools upon which this requirement would create a substantial financial burden. EDUCATION

Part CXLVII. Bulletin 130—Regulations for the Evaluation and Assessment of School Personnel

Chapter 3. Personnel Evaluation

§301. Overview of Personnel Evaluation

A. Personnel evaluation for teachers and administrators shall be composed of two parts. Fifty percent of the evaluation shall be composed of applicable measure(s) of growth in student learning. The remaining 50 percent shall be based upon a qualitative assessment of teacher or administrator performance.

1. For teachers, the 50 percent of the evaluation based upon growth in student learning shall measure the growth of their students using data from the value-added model and/or student learning targets, according to guidelines provided by the department. For administrators, the 50 percent of the evaluation based upon growth in student learning shall incorporate a school-wide measure of growth and goal setting for principals is subject to §305.D of this bulletin.

2. The 50 percent of the evaluation that is based on a qualitative measure of teacher and administrator performance shall include a minimum of two observations or site visits. This portion of the evaluation may include additional evaluative evidence, such as walk-through observation data and evaluation of written work products.

B. The combination of the applicable measure of growth in student learning and the qualitative assessment of performance shall result in a composite score used to distinguish levels of overall effectiveness for teachers and administrators.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10), R.S. 17:391.10, R.S. 17:3881-3886, and R.S. 17:3901-3904, R.S. 17:3997, and R.S. 17:10.1.

§303. Measures of Growth in Student Learning—Value-Added Model

A. - F. ...

G. During the transition to new standards and assessments and as a new two-year baseline is set, value-added data will not be available in 2013-2014, 2014-2015, or 2015-2016. During this time, the department shall provide transitional student growth data that may be used as a measure of student growth, at the evaluator’s discretion. LEAs may define local rules pertaining to the use of such data.

H. When assigning a final student growth score, the administrator may adjust the value-added rating by plus or minus one rating level, based on the teacher’s student learning target performance (e.g., the overall student growth rating may be a 2.0 (effective: emerging) or 4.0 (highly effective) if the value-added rating is 3.0 (effective: proficient)).

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10), R.S. 17:391.10, R.S. 17:3881-3886, and R.S. 17:3901-3904, R.S. 17:3997, and R.S. 17:10.1.

HISTORICAL NOTE: Promulgated by the Board of Elementary and Secondary Education, LR 38:1216 (May 2012), amended LR 38:3123 (December 2012), LR 39:1273 (May 2013), LR 40:761 (April 2014), LR 41:1267 (July 2015).

§305. Measures of Growth in Student Learning—Learning Targets

A. The department shall expand the value-added model, as new state assessments become available.

B. For teachers and administrators, progress towards pre-determined student learning targets, as measured by state-approved common assessments, where available, shall inform the student growth component of the evaluation. Student learning targets shall include goals which express an expectation of growth in student achievement over a given period of time, as well as common measures for assessing attainment of those goals, such as an identified assessment and/or a body of evidence.

C. Teachers. A minimum of two student-learning targets shall be identified for each teacher. The department shall provide an evaluative tool for evaluators to use in assessing the quality and attainment of student learning targets.

1. State-approved common assessments shall be used as part of the body of evidence measuring students’ attainment of learning targets, where available.

2. Where no state-approved common assessments are available, evaluatees and evaluators shall decide upon the appropriate assessment or assessments to measure students’ attainment of learning targets.

3. LEAs may define consistent student learning targets across schools and classrooms for teachers with similar assignments, provided that they allow for ample flexibility to address the specific needs of students in each classroom.

D. Principals and Administrators. A minimum of two student learning targets shall be identified for each administrator.

1. For principals, the LDE shall provide recommended targets to use in assessing the quality and attainment of both student learning targets, which will be based upon a review of “similar” schools. The LDE will annually publish the methodology for defining “similar” schools.

2. For principals, at least one learning target shall be based on overall school performance improvement in the current school year, as measured by the school performance score.

3. For principals, at least one learning target shall be based on growth in a component (e.g., ELA or math improvement) of school performance score.

4. Principals at schools with special populations (e.g. alternative schools) or those that do not have grades with standardized testing and available value-added data (e.g., K-2 schools) may define learning targets based on LDE guidance.

E. The department shall provide annual updates to LEAs relating to:

1. the expansion of state-standardized testing and the availability of value-added data, as applicable;

2. the expansion of state-approved common assessments to be used to build to bodies of evidence for student learning where the value-added model is not available; and

3. the revision of state-approved tools to be used in evaluating student learning targets.

AUTHORITY NOTE: Promulgated in accordance with R.S. 17:6(A)(10), R.S. 17:391.10, R.S. 17:3881-3886, and R.S. 17:3901-3904, R.S. 17:3997, and R.S. 17:10.1.

§309. Standards of Effectiveness

A. Teachers and administrators shall receive a final composite score on annual evaluations to determine their effectiveness rating for that academic year.

1. The 50 percent of evaluations that is based on student growth will be represented by a sub-score between 1.0 and 4.0.

2. The 50 percent of evaluations that is based on a qualitative assessment of performance will also be represented by a sub-score between 1.0 and 4.0.

3. The final composite score for teachers and administrators shall be the average of the two sub-scores and shall be represented as a score between 1.0 and 4.0.

B. The composite score ranges defining ineffective, effective (emerging or proficient) and highly effective performance shall be as follows.

Effectiveness Rating	Composite Score Range
Ineffective	$x < 1.5$
Effective: Emerging	$1.5 \leq x < 2.5$
Effective: Proficient	$2.5 \leq x < 3.5$
Highly Effective	$3.5 \leq x$

Honorary Diplomas (LAC 28:I.1501)

In accordance with R.S. 49:950 et seq., the Administrative Procedure Act, the Board of Elementary and Secondary Education has adopted the *Louisiana Administrative Code*, Title 28, Part I, Chapter 15, Honors and/or Special Recognitions, §1501, Honorary Diplomas. These revisions are in response to legislative resolutions from the years 2000 (HCR 24) and 2006 (SCR 9), which requested the board devise and implement a program to grant honorary high school diplomas to veterans who left high school prior to graduation to serve the United States in military conflicts around the world. Further, the revisions make clear that the rights and privileges attached to a regular high school diploma, or its equivalent, are not applicable to the honorary diploma issued to veterans meeting the requirements of this policy.

Department of Environmental Quality Office of the Secretary Legal Division

2014 Annual Incorporation by Reference
Federal Air Quality Regulations
(LAC 33:III.507, 2160, 3003, 5116
5122, 5311, and 5901)(AQ352ft)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary has amended the Air regulations, LAC 33:III.507, 2160, 3003, 5116, 5122, 5311, and 5901 (Log #AQ352ft).

This Rule is identical to federal regulations found in 40 CFR part 51, appendix M, 40 CFR part 60, 40 CFR part 61, 40 CFR part 63, 40 CFR part 68, 40 CFR part 70.6(a), and 40 CFR part 96, which are applicable in Louisiana. For more information regarding the federal requirement, contact the Regulation Development Section at (225) 219-3985 or P.O. Box 4302, Baton Rouge, LA 70821-4302. No fiscal or economic impact will result from the Rule. This Rule will be promulgated in accordance with the procedures in R.S. 49:953(F)(3) and (4).

This Rule incorporates by reference (IBR) into the *Louisiana Administrative Code* (LAC), Title 33, Part III, Air the following federal regulations included in the July 1, 2014 edition of the *Code of Federal Regulations* (CFR): 40 CFR parts 51, appendix M, 60, 61, 63, 68, 70.6(a) and 96. Any exception to the IBR is explicitly listed in the Rule. This Rule updates the references to July 1, 2014, for standard of performance for new stationary sources, 40 CFR part 60. The Rule also updates the references to July 1, 2014, for the national emission standards for hazardous air pollutants (NESHAP) and for NESHAP for source categories, 40 CFR parts 61 and 63. In order for Louisiana to maintain equivalency with federal regulations, certain regulations in the most current *Code of Federal Regulations*, July 1, 2014, must be adopted into the *Louisiana Administrative Code* (LAC). This rulemaking is also necessary to maintain delegation authority granted to Louisiana by the Environmental Protection Agency. The basis and rationale for this Rule are to mirror the federal regulations as they apply to Louisiana's affected sources. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

No part 70 source may operate after the time that the owner or operator of such source is required to submit a permit application under Subsection C of this Section, unless an application has been submitted by the submittal deadline and such application provides information addressing all applicable sections of the application form and has been certified as complete in accordance with LAC 33:III.517.B.1. No part 70 source may operate after the deadline provided for supplying additional information requested by the permitting authority under LAC 33:III.519, unless such additional information has been submitted within the time specified by the permitting authority. The department hereby adopts and incorporates by reference the provisions of 40 CFR 70.6(a), July 1, 2014. Upon issuance of the permit, the part 70 source shall be operated in compliance with all terms and conditions of the permit. Noncompliance with any federally applicable term or condition of the permit shall constitute a violation of the Clean Air Act and shall be grounds for enforcement action; for permit termination, revocation and reissuance, or revision; or for denial of a permit renewal application.

This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

§361. Registration of Product Information

A. Any manufacturer or initial distributor of a sealed source or device containing a sealed source may submit a request to the department for evaluation of radiation safety information about its product and for its registration.

B. - C. ...

D. The department normally evaluates a sealed source or a device using radiation safety criteria in accepted industry standards. If these standards and criteria do not readily apply to a particular case, the department formulates reasonable standards and criteria with the help of the manufacturer or distributor. The department shall use criteria and standards sufficient to ensure that the radiation safety properties of the device or sealed source are adequate to protect health and minimize danger to life and property. LAC 33:XV.Chapter 3 includes: specific criteria that apply to certain exempt

products; specific criteria applicable to certain generally licensed devices; and specific provisions that apply to certain specifically licensed items.

E. After completion of the evaluation, the department issues a certificate of registration to the person making the request. The certificate of registration acknowledges the availability of the submitted information for inclusion in an application for a specific license proposing use of the product, or concerning use under an exemption from licensing or general license as applicable for the category of certificate.

F. - F.2. ...

G. Authority to manufacture or initially distribute a sealed source or device to specific licensees may be provided in the license without the issuance of a certificate of registration in the following cases:

1. calibration and reference sources containing no more than:

a. 37 MBq (1 mCi) for beta and/or gamma emitting radionuclides; or

b. 0.37 MBq (10 Ci) for alpha emitting radionuclides; or

2. the intended recipients are qualified by training and experience and have sufficient facilities and equipment to safely use and handle the requested quantity of radioactive material in any form in the case of unregistered sources or, for registered sealed sources contained in unregistered devices, are qualified by training and experience and have sufficient facilities and equipment to safely use and handle the requested quantity of radioactive material in unshielded form, as specified in their licenses; and

a. the intended recipients are licensed under LAC 33:XV.327 or comparable provisions of the U.S. Nuclear Regulatory Commission or an agreement state; or

b. the recipients are authorized for research and development; or

c. the sources and devices are to be built to the unique specifications of the particular recipient and contain no more than 740 GBq (20 Ci) of tritium or 7.4 GBq (200 mCi) of any other radionuclide.

H. After the certificate is issued, the department may conduct an additional review as it determines is necessary to ensure compliance with current regulatory standards. In conducting its review, the department will complete its evaluation in accordance with criteria specified in this Section. The department may request such additional information as it considers necessary to conduct its review and the certificate holder shall provide the information as requested.

I. Inactivation of Certificates of Registration of Sealed Sources and Devices

1. A certificate holder who no longer manufactures or initially transfers any of the sealed source(s) or device(s) covered by a particular certificate issued by the department shall request inactivation of the registration certificate. Such a request shall be made to the Office of Environmental Compliance and must normally be made no later than two years after initial distribution of all of the source(s) or device(s) covered by the certificate has ceased. However, if the certificate holder determines that an initial transfer was in fact the last initial transfer more than two years after that transfer, the certificate holder shall request inactivation of

the certificate within 90 days of this determination and briefly describe the circumstances of the delay.

2. If a distribution license is to be terminated in accordance with LAC 33:XV.332, the licensee shall request inactivation of its registration certificates associated with that distribution license before the department will terminate the license. Such a request for inactivation of certificate(s) shall indicate that the license is being terminated and include the associated specific license number.

3. A specific license to manufacture or initially transfer a source or device covered only by an inactivated certificate no longer authorizes the licensee to initially transfer such sources or devices for use. Servicing of devices shall be in accordance with any conditions in the certificate, including in the case of an inactive certificate.

J. Serialization of Nationally Tracked Sources. Each licensee who manufactures a nationally tracked source after February 6, 2007, shall assign a unique serial number to each nationally tracked source. Serial numbers must be composed only of alpha-numeric characters.

- the date and time when bids will be received, opened and publicly read;
- the names and locations of the state agencies for which the purchases are to be made;
- where and how specifications and bid forms may be obtained.

2. The invitation for bids shall be on the state's standard forms containing all pertinent information and shall be full and complete including specifications, quantities, units, packaging and number of containers to the case.

B. Content. The invitation for bids shall include the following:

1. the purchase description, evaluation factors, delivery or performance schedule, and inspection and acceptance requirements not included in the purchase description; and

2. the contract terms and conditions, including warranty and bonding or other security requirements, as applicable.

RULE

**Department of Public Safety and Corrections
Corrections Services**

**Offender Incentive Pay and Other Wage Compensation
(LAC 22:1.331)**

In accordance with the provisions of the Administrative Procedure Act (R.S. 49:950), the Department of Public Safety and Corrections, Corrections Services, has amended the contents of Section 331, Offender Incentive Pay and Other Wage Compensation.

Title 22

**CORRECTIONS, CRIMINAL JUSTICE AND LAW
ENFORCEMENT**

Part I. Corrections

Chapter 3. Adult Services

**§331. Offender Incentive Pay and Other Wage
Compensation**

A. Purpose—to state the secretary’s policy regarding payment of incentive wages and other wage compensations to offenders.

B. Applicability—deputy secretary, undersecretary, chief of operations, director of prison enterprises, regional wardens and wardens. Each unit head is responsible for ensuring that appropriate unit written policy and procedures are in place to comply with the provisions of this regulation.

C. Policy. It is the secretary’s policy that compensation shall be paid, in accordance with the provisions of this regulation, to all offenders who have served at least three

years of their sentence in the physical custody of the department and who have performed satisfactory work in the job assignment in which they have been classified (except those offenders who opt to receive good time in lieu of incentive wages in accordance with R.S. 15:571.3).

D. Procedures

1. An offender sentenced or resentenced or who is returning to the physical custody of the department on or after September 20, 2008, who is not eligible to earn good time at any rate shall serve three years from the date of reception before becoming eligible to earn incentive pay.

a. Grandfather Clause. The provisions of this section are applicable to offenders received at the reception and diagnostic centers on or after September 20, 2008. Offenders received at a reception and diagnostic center prior to this date shall be subject to the waiting period previously in effect for this regulation. Offenders who are currently receiving incentive pay will not be affected and will continue to be eligible to receive incentive pay as they did on the effective date of this regulation but shall be subject to the provisions of Paragraph D.3 as it applies to job changes.

2. An offender sentenced or re-sentenced or who is returning to the physical custody of the department on or after September 20, 2008, who is eligible to earn good time at any rate shall not be eligible to earn incentive wages.

a. Grandfather Clause. Offenders currently earning good time at a rate of three days for every 17 days served in accordance with Act 1099 of the 1995 Regular Session who are also earning incentive pay shall be allowed to continue to earn incentive pay at authorized rates.

3. Once eligible to earn incentive pay, each offender shall initially be paid an “introductory pay level” of two cents per hour for a period of six months. After six months, the offender shall be paid at the lowest pay rate that is commensurate with the job assignment he is placed in by the institution. In the event of a change in an offender’s job assignment or custody status, the offender’s rate of compensation shall automatically be adjusted to the lowest pay rate of the assigned job. If a change in job assignment is not for disciplinary reasons, the Warden may approve the offender to be paid at the same rate as the previous job

assignment and the rate of compensation shall not be automatically adjusted to the lowest pay rate of the new job assignment.

a. Grandfather Clause. Offenders earning incentive pay at any rate, prior to the effective date of this regulation, shall continue to earn at these rates. If the offender is reassigned to a new job or vacates the job for any reason and it has been determined the rate of pay for the job that he is leaving should be lower, the next offender to fill that position will receive the adjusted lower rate.

4. An offender may receive a raise in his hourly pay rate of no greater than \$0.04 per hour on an annual basis unless specifically authorized by mutual agreement of the director of prison enterprises and the warden of the respective institution, except as provided in Paragraphs D.12, 13, 14, 15 and 16 below.

5. No offender shall earn more than 80 hours in a two-week period unless specifically authorized by mutual agreement of the director of prison enterprises and the warden of the respective institution.

a. Exception. Offenders assigned to job duties at the governor's mansion will not be limited to 80 hours bi-weekly.

6. Any offender who has his incentive pay forfeited as a disciplinary sanction shall return to the "introductory pay level" of two cents per hour for a six month period upon reinstatement of his right to earn incentive pay. At the end of the six-month period, the offender's pay will be automatically adjusted to the lowest pay rate for the assigned job.

7. A series of pay ranges and a standardized list of job titles shall be established by the director of prison enterprises and approved by the secretary or designee. The institutions shall be assigned limits on the total amount of incentive wages paid in certain pay ranges. These limits shall be derived on a percentage basis determined by the total hours worked by offenders who are eligible to earn incentive pay at each institution and shall be approved by the director of prison enterprises and the secretary or designee. Prison enterprises shall issue reports detailing each institution's status with regard to their limits on a quarterly basis. Offender banking shall monitor the assigned limits to ensure that the institutions remain within their limits and report discrepancies to the chief of operations, the appropriate regional warden, the director of prison enterprises and the warden of the institution.

a. The regional wardens shall work closely with the director of prison enterprises to ensure that any institution that exceeds the established limits is brought back into compliance in an expeditious manner.

b. Exception. Offenders who work in prison enterprises job titles will not affect an institution's pay range percentage limits.

8. Incentive wages shall not be paid for extra duty assignments that are imposed as sanctions through the offender disciplinary process.

9. All offenders classified in limited duty status and who are eligible to earn incentive wages shall earn at a rate of no more than \$0.04 per hour. This excludes offenders classified as regular duty with restrictions or those with a temporary limited duty status.

10. All offenders classified in working cellblocks and maximum custody field lines who are eligible to earn incentive wages shall earn at the rate of \$0.02 per hour.

11. All offenders assigned to educational or vocational programs who are eligible to earn incentive wages shall be paid at the rate of \$0.04 per hour.

a. Exception. Due to the importance of the New Orleans Baptist Theological Seminary program and its positive impact on the department, offenders enrolled in this program shall earn incentive wages at the following rates:

- i. freshmen: \$0.14 per hour;
- ii. sophomores: \$0.16 per hour;
- iii. juniors: \$0.18 per hour;
- iv. Seniors: \$0.20 per hour.

b. Upon completion of any educational or vocational program, the offender may, upon request and at the discretion of the warden and based upon availability, return to the same job at the same rate of pay he held prior to enrollment in the program.

12. Offenders assigned to prison enterprises industrial, agricultural, service or other prison enterprises jobs may be compensated at a rate up to \$0.40 per hour. The pay range for these jobs shall be established by the director of prison enterprises and approved by the secretary or designee.

13. Offender tutors who achieve certification from the Corrections Education Association (CEA) or an NCCER or other industry based certification may be paid, on a graduating scale, up to \$1 per hour while working as a tutor in the area of certification. Certified tutors may earn \$0.75 per hour during the first 12 months after certification and may receive an annual raise of \$0.10 per hour, up to a maximum of \$1 per hour.

14. In accordance with established procedures, Paragraph D.4, offenders who are participating in the American Sign Language Interpreting Program shall earn incentive wages at the following rates:

- a. sign language student I: \$0.20 per hour;
- b. sign language interpreter student/tutor: \$0.50 per hour;

16. Offenders who are assigned to work as counsel substitutes shall be paid in accordance with their education and years of legal experience. Incentive wages shall be earned at the following rates:

- a. legal worker 1: \$0.25 per hour:
 - i. must be enrolled in paralegal classes or have less than five years legal work experience;
- b. legal worker 2: \$0.50 per hour:
 - i. must have attained paralegal certificate or degree and have less than three years legal work experience or have five years legal work experience and no paralegal certificate or degree;
- c. legal worker 3: \$0.80 per hour:

i. must have attained paralegal certificate or degree and have a minimum of three years legal work experience or have 10 years legal work experience and no paralegal certificate or degree;

d. counsel substitutes may receive an annual raise of five cents per hour, up to a maximum of \$1 per hour.

17. Offenders who are eligible to earn incentive wages shall be paid only for actual hours worked in their job assignment. Offenders shall not be paid for time spent away from their job assignment due to circumstances such as holidays, callouts, duty status, weather, illness, etc.

18. For the purpose of this regulation, income earned from a private sector/prison industry enhancement (PS/PIE) program or a work release program is not "incentive pay." Therefore, offenders employed in any of these programs may receive good time in accordance with the law. The director of prison enterprises shall establish record-keeping procedures relating to wages earned by offenders employed in a PS/PIE program that include all mandatory deductions from offender wages, other deductions such as child support or garnishment and the distribution of net offender wages to offender banking.

E. Sources of Funding

1. The division of prison enterprises shall pay all incentive wages.

RULE

**Workforce Commission
Rehabilitation Services**

Business Enterprises Program Manual (LAC 67:VII.519)

In accordance with the provisions of R.S. 49:953(B) of the Administrative Procedure Act, Louisiana Workforce Commission (LWC), Louisiana Rehabilitation Services (LRS), revised two parts of one Section of the Business Enterprise Program manual, as it relates to the Randolph-Sheppard Program. In §519.E.1.a, state licensing agency responsibilities for business enterprise operations, the term *priority* was changed to *extra consideration*. In §519.G.2.h, the agency provided clarification to the 30 calendar day time frame as it relates to convening an arbitration panel with the secretary. Amending the above Sections of the Business Enterprises Program policy manual allows for selection of the most qualified applicant for vacant facilities and establishes a time frame for requesting federal arbitration.

These minimum qualification will establish the level of accomplishment expected of the applicant for the vacant business enterprise in each of the areas to be considered by the screening committee as described in §519.E.2. Extra consideration will be given to displaced licensed managers:

- i. location, type of enterprise, and general description of operations;
- ii. minimum qualifications;
- iii. for a new enterprise, estimates of monthly net sales based upon potential patronage, with disclaimer this estimate is not a guarantee of sales; and
- iv. application due date.

E.2. - F.6. ...

G. Due Process. The SLA provides procedures for fair hearings of licensed managers' grievances. These procedures provide each licensed manager the opportunity to seek remediation of dissatisfaction with any SLA action arising from the operation of the BEP and are set forth in the following.

1. - 1.c. ...

2. Full Evidentiary Hearings. Licensed managers have the right to a full evidentiary hearing to resolve dissatisfaction with any SLA action arising from the operation or administration of the Business Enterprises Program. Evidentiary hearings shall be conducted as set forth in the following.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Examination Fees

- I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change, which raises horticulture exam fees from \$50 to \$114, will have no associated costs or savings

to the state other than the cost of promulgation for FY 16. Pursuant to LA Revised Statute 3:3806, the horticulture commission has the authority to increase examination fees for all professions provided the fee does not exceed \$350.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change is anticipated to generate an additional \$35,840 in revenue per year under the proposed rule. This amount, which is based upon an average of 560 horticulture exams given annually, will allow the department to cover its costs in obtaining, administering and grading the examinations. Due to most horticulture exams being taken prior to the proposed rule's effective date, the full projected increase in annual revenues as a result of the proposed rule's implementation will likely not be realized until FY 17, with projected additional revenues totaling \$26,880 in FY 16. The current cost paid by an individual to take the exam is \$50. The proposed rule increases the cost paid by an individual to take the exam to \$114, which is the actual cost incurred by the department in obtaining, administering, and grading the examinations.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The only anticipated cost associated with the proposed rule is the fee increase of \$64 from \$50 to \$114 for persons wishing to take horticulture exams. For reference, LDAF administers an average of 560 horticulture exams per year.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

It is anticipated that the implementation of this proposed rule will not have an effect on competition and employment.

Confirmation of disposition of products shall be made available in writing to the commissioner. Specific variations or exemptions may be made for fuels used for blending purposes or designed for special equipment or services and for which it can be demonstrated that the distribution will be restricted to those uses.

**FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES**

**RULE TITLE: Weights and Measures;
Petroleum Products**

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed changes to Rule 347 will have a nominal fiscal impact associated with printing forms for gas station owners or their designee to report the disposition and course of action for nonconforming products, as well as re-inspection and re-testing costs associated with releasing fuel back to retail.

The proposed changes to Rules 109, 127, 301, 321, and 327 have no anticipated fiscal impact. The proposed change to Rule 109 defines the measurement for a “minisack” of oysters. The proposed changes to Rule 127 provide relative to registration of taxicabs. The proposed changes to Rules 301, 321, and 327 add new definitions, language, and labeling requirements for biomass-based diesel and biomass-based diesel fuel blends.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There is no anticipated fiscal impact to revenue collections as a result of the proposed rule changes.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

It is not anticipated that the amendment to Rule 109 will have any cost to directly affected persons. Costs may be incurred by oystermen if they voluntarily choose to purchase new sacks or baskets to reflect the additional measurement unit of a “minisack.” It is not anticipated that the amendment to Rule 127 will have a cost or benefit to directly affected persons or non-governmental groups. The amendments to Rules 301, 321 or 327 may result in a cost to gas stations associated with selling biomass-based diesel, because the stations will incur costs associated with printing labels for the new type(s) of fuel based upon federal regulations. The amendment to Rule 347 may result in costs to gas station owners or their designee because they will now have to fill out a form to inform the department of the method of disposition of nonconforming fuels, as well as incur costs associated with re-refining, disposing of, or blending out nonconforming products.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There is no anticipated impact to competition and employment as a result of the proposed rule changes.

Stumpage; Seedlings; Indian Creek Recreation Area;
Landowner Assistance; Reforestation
(LAC 7:XXXIX.101, 105, 107, 301,
501, 701, 1001, 1307, and 1321)

In accordance with the Administrative Procedure Act, R.S. 49:950 et seq., notice is hereby given that the Department of Agriculture and Forestry (“department”), through the Office of Forestry, intends to amend LAC 7:XXIX.101, 105, 107, 501, 701, 1001, 1307, and 1321 and repeal Section 301. Sections 101, 105, and 107 are being amended in response to

Act No. 185 of the 2013 Regular Session of the Louisiana Legislature (“Act 185”). Act 195 amended R.S. 47:633 and now provides that the Louisiana Tax Commission may assist the Louisiana Forestry Commission in determining the average stumpage market value of timber and repeals the portion of the law that required the two commissions to set the value jointly. Act 195 also changed the meeting date from the “second Monday in December” to simply “in December.” This change is also reflected in the proposed amendment to Sections 101 and 105. Section 301 is being repealed because the department is no longer going to own tree seedling nurseries. The amendments to Section 501 are intended to bring the prices charged at the Indian Creek recreation area in line with those charged by other state parks in Louisiana. The amendments to Section 701 establish a distinction between two sizes of dozer equipment used in forest landowner assistance. Section 1001 is being amended to correct a typographical error. Section 1307 is being amended to increase the maximum cost share amount available to a landowner. This will result in more efficient use of timber management practices. The amendments also change the coding system used internally to administer the Forest Productivity Program. Section 1321 is being amended to use “may” instead of “shall.” The law, R.S. 3:4416, does not require a portion of monies be set aside each year; therefore, the use of “may” is appropriate.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Stumpage; Seedlings; Indian Creek Recreation Area; Landowner Assistance; Reforestation

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed changes to Rule 1307, which raises the reimbursement ceiling of the Forest Productivity Program from \$10,000 to \$15,000 annually, may result in additional costs for the Department of Agriculture & Forestry to the extent that landowners make full use of the cost share rates. The new maximum reimbursement reflects the increased cost of management for the Forest Productivity Program, which is funded using revenues from timber severance taxes.

The proposed changes to Rules 101, 105, 107, 301, 501, 1001, and 1321 are not anticipated to result in savings or costs to state or local governmental units. The proposed changes to Rules 101, 105, and 107 remove references to the LA Tax Commission in regards to the commission no longer having a role in determining stumpage market values pursuant to Act 330 of the 2015 Legislative Session. The proposed change to Rule 301 repeals provisions relative to seedling prices. The proposed change to Rule 501 raises fees for the use of amenities at the Indian Creek Recreation Area. The proposed change to Rule 1001 corrects a typographical error. The proposed change to Rule 1321 gives the Commissioner of Agriculture discretion over setting aside monies in the Forestry Protection Fund for competitive research and cooperative extension grants.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed changes to Rule 501 will increase revenue due to patrons of Indian Creek Recreational Area paying higher rates. The proposed changes to Rule 701 will increase revenues for the Department of Agriculture & Forestry as the proposed rule outlines different rates for light dozer (\$70/hour) and heavy dozer work (\$100/hour) to the extent consumers require heavy dozer work. The previous hourly rate for all dozer work was \$70. The remaining proposed rule changes are not anticipated to have a direct material effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed amendment to Rule 1307 will benefit landowners in the state by raising the maximum reimbursement rate under the Forest Productivity Program from \$10,000 to \$15,000 annually, which reflects the cost of management for the program. The proposed changes to Rule 501 will result in patrons of the Indian Creek Recreation Area paying higher rates to use the area's amenities. The proposed changes to Rules 101, 105, 107, 301, 1001, and 1321 are not anticipated to have a direct cost or economic benefit to directly affected persons or non-governmental groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule changes are not anticipated to have a material effect on competition and employment.

Board of Trustees of the District Attorneys' Retirement System

District Attorneys' Retirement System
(LAC 58:XXI.Chapters 1-7)

The Board of Trustees of the District Attorneys' Retirement System ("DARS") proposes to adopt LAC 58:XXI.Chapters 1-7 as interpretation of the provisions of the District Attorneys' Retirement System, as authorized by R.S. 11:1588(A), 1614(F), 1632(F), 1635(E), and 1636(E). This proposed Rule is promulgated in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq. The purpose of the proposed Rule is compliance with requirements imposed by the Internal Revenue Service as a condition of its favorable determination letter on the qualification of the District Attorneys' Retirement System under *Internal Revenue Code* (IRC) §401(a).

Title 58

RETIREMENT

Part XXI. District Attorneys' Retirement System

Chapter 1. General Provisions

§101. Compensation

A. Definitions. As provided under R.S. 11:1581(5), effective for limitation years beginning on or after July 1, 2007, compensation is hereby defined as follows.

Compensation—the regular pay of the member, not including any overtime or bonuses.

DARS—the District Attorneys' Retirement System, as set forth in R.S. 11:1581 through 1702 and this Part.

IRC §415 Compensation—wages, tips and other compensation required to be reported under §§6041, 6051 and 6052 of the *Internal Revenue Code* (IRC) (wages, tips and other compensation box on IRS Form W-2), during the calendar year of the plan (the plan year or determination period).

B. Exclusions from Compensation. Compensation shall not include:

1. any amounts that are not includible in IRC §415 compensation;

2. employer contributions to a plan of deferred compensation to the extent contributions are not included in gross income of the employee for the taxable year in which contributed, or on behalf of an employee to a simplified employee pension plan and any distributions from a plan of deferred compensation;

3. amounts realized from the exercise of a non-qualified stock option, or when restricted stock (or property) held by an employee becomes freely transferable or is no longer subject to a substantial risk of forfeitures;

4. amounts realized from the sale, exchange or other disposition of stock acquired under a qualified stock option;

5. other amounts that receive special tax benefits, or contributions made by an employer (whether or not under a salary reduction agreement) towards the purchase of a IRC §403(b) annuity contract (whether or not the contributions are excludible from the gross income of the employee); and

6. pre-tax amounts contributed by the employee to an IRC §125 cafeteria plan.

C. Determination of IRC §415 Compensation. IRC §415 compensation must be determined without regard to any rules under IRC §3401(a) that limit the remuneration included in wages based on the nature or location of the employment or the services performed (such as the exception for agricultural labor in IRC §3401(a)(2)).

1. For plan years beginning on and after January 1, 2001:

a. IRC §415 compensation shall include elective amounts that are not includible in the gross income of the employee under IRC §§125, 132(f)(4), 402(e)(3), 402(h), 403(b) or 457.

2. For any plan year beginning after December 31, 2001:

a. IRC §415 compensation shall not exceed the maximum amount of compensation permitted to be taken into account under IRC §401(a)(17), \$200,000 adjusted for the cost of living increases in accordance with IRC §401(a)(17)(B).

i. The cost-of-living adjustment in effect for a calendar year applies to annual compensation for the determination period that begins with or within such calendar year.

3. If a determination period consists of fewer than 12 months, as a result of a change in plan year or in the year of the termination of the plan.

a. The IRC §415 compensation limit is an amount equal to the otherwise applicable IRC §415 compensation limit multiplied by a fraction, the numerator of which is the number of months in the short determination period, and the denominator of which is 12.

4. If IRC §415 compensation for any prior determination period is taken into account in determining a

participant's benefit for the current plan year, the IRC §415 compensation for such prior determination period is subject to the applicable IRC §415 compensation limit in effect for that prior period.

D. IRC §415 Compensation Paid After Severance from Employment

1. Adjusted Compensation. IRC §415 compensation shall be adjusted for the following types of compensation paid after a participant's severance from employment with the employer maintaining the plan (or any other entity that is treated as the employer pursuant to IRC §414(b), (c), (m) or (o)). However, amounts described in Paragraphs 2-8 of this Subsection may only be included in IRC §415 compensation to the extent such amounts are paid by the later of 2 1/2 months after severance from employment or by the end of the limitation year that includes the date of such severance from employment. Any other payment of compensation paid after severance from employment that is not described in the following types of compensation is not considered IRC §415 compensation within the meaning of IRC §415(c)(3), even if payment is made within the time period specified above.

2. Regular Pay. IRC §415 compensation shall include regular pay after severance from employment if:

a. the payment is regular compensation for services during the participant's regular working hours, or compensation for services outside the participant's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments; and

b. the payment would have been paid to the participant prior to a severance from employment if the participant had continued in employment with the employer.

3. Leave Cashouts. Leave cashouts shall be included in IRC §415 compensation if:

a. those amounts would have been included in the definition of IRC §415 compensation if they were paid prior to the participant's severance from employment; and

b. the amounts are payment for unused accrued bona fide sick, vacation, or other leave, but only if:

i. the participant would have been able to use the leave if employment had continued.

4. Deferred Compensation. IRC §415 compensation will include deferred compensation if the compensation would have been included in the definition of IRC §415 compensation and if:

a. it had been paid prior to the participant's severance from employment; and

b. the compensation is received pursuant to a nonqualified unfunded deferred compensation plan, but only if:

i. the payment would have been paid at the same time if the participant had continued in employment with the employer and only to the extent that the payment is includible in the participant's gross income.

5. Qualified Military Service. IRC §415 compensation does not include payments to an individual who does not currently perform services for the employer by reason of qualified military service (as that term is used in IRC §414(u)(1)) to the extent those payments do not exceed the amounts the individual would have received if the individual had continued to perform services for the employer rather than entering qualified military service.

6. Permanently and Totally Disabled. IRC §415 compensation does not include compensation paid to a participant who is permanently and totally disabled (as defined in IRC §22(e)(3)).

7. Amounts Earned but not Paid. IRC §415 compensation for a limitation year shall not include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates.

8. Lost Wages. Payments awarded by an administrative agency or court or pursuant to a bona fide agreement by an employer to compensate an employee for lost wages are IRC §415 compensation for the limitation year to which the back pay relates, but only to the extent such payments represent wages and compensation that would otherwise be included in IRC §415 compensation.

E. Limitation Year

1. The limitation year:

- a. shall be the calendar year;
- b. is the period that is used to apply the limitations of IRC §415.

2. The limitation year may only be changed by amendment to DARS. Furthermore, if DARS is terminated effective as of a date other than the last day of DARS's limitation year, then DARS is treated as if DARS had been amended to change its limitation year.

§105. Accumulated Contributions, Rollovers

A. Definitions. As provided in R.S. 11:1635(E), the following definitions are provided or revised.

2009 RMDs of a Participant or Beneficiary—amounts that the participant or beneficiary would have been required to receive as a required minimum distribution under IRC §401(a)(9) for the 2009 distribution calendar year.

Eligible Retirement Plan—shall include, in addition to the plans and accounts described in R.S. 11:1635(D)(3), the following.

- a. Effective for distributions on or after January 1, 2007, eligible retirement plan shall include the individual retirement account or annuity in the name of the deceased participant for the benefit of a nonspouse beneficiary, who receives an eligible rollover distribution from the plan on account of the death of a participant, provided that the individual retirement account or annuity is treated as an inherited IRA and that the minimum distribution rules

applicable in the event the IRA owner dies before the entire interest is distributed shall apply to the transferee IRA and the transferee IRA does not provide the beneficiary with the special rules for surviving spouse beneficiaries.

b. If any portion of an eligible rollover distribution is attributable to payments or distributions from a designated Roth account, an eligible retirement plan with respect to such portion shall include only another designated Roth account of the individual from whose account the payments of distributions were made, or a Roth IRA of such individual. Effective January 1, 2007, a Roth IRA is an eligible retirement plan with respect to distributions from this plan that do not consist of designated Roth accounts, so long as the restrictions that apply to a transfer from a traditional IRA (non-Roth) to a Roth IRA are satisfied.

Eligible Rollover Distribution—shall include, in addition to the events set forth in R.S. 11:1635(D)(4), the following.

a. Effective January 1, 2003, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in §408(a) or (b) of the *Internal Revenue Code*, or a Roth individual retirement account or annuity described in §408A of the *Internal Revenue Code* (a "Roth IRA") or to a qualified defined contribution plan described in §§401(a) or 403(a) of the *Internal Revenue Code* that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includible in gross income and the portion of such distribution that is not so includible.

b. Effective January 1, 2007, eligible rollover distributions shall include a distribution to a nonspouse beneficiary on account of the participant's death, so long as any rollover distribution is transferred to an individual retirement account or annuity that is treated as an inherited account of the deceased participant, or Roth IRA established on behalf of the nonspouse designated beneficiary for the purpose of receiving the distribution. Effective January 1, 2007, early rollover distribution shall include after-tax contributions held in a plan qualified under §401(a) of the *Internal Revenue Code*. Effective January 1, 2007, distributions from the plan that do not consist of designated Roth accounts shall be eligible rollover distributions with respect to a Roth IRA and may be rolled over to a Roth IRA, subject to the restrictions that apply to a transfer from a traditional (non-Roth) IRA to a Roth IRA.

c. During 2009, 2009 RMDs shall be treated as eligible rollover distributions for purposes of making available the direct rollover of eligible rollover distributions that include such amount, but not for purposes of withholding federal income taxes on the amount when it is distributed.

B. Rollover of Returned Contributions. As provided in R.S. 11:1635(E):

1. distributee, eligible retirement plan and eligible rollover distribution shall be defined as provided in Subsection A of this Section;

2. an eligible rollover distribution shall be transferred in a direct rollover to an eligible retirement plan if so

directed by the distributee. The board shall provide distributees with the opportunity to direct such direct rollover by written notice at least 30 and not longer than 180 days prior to the distribution;

3. this rollover right shall apply to any eligible rollover distribution, including distributions of accumulated contributions, DROP accounts and back-DROP accounts.

C. Eligible Retirement Plan

1. Effective for distributions on or after January 1, 2007:

a. eligible retirement plan shall include the individual retirement account or annuity in the name of the deceased participant for the benefit of a nonspouse beneficiary, who receives an eligible rollover distribution from the plan on account of the death of a participant, provided that the individual retirement account or annuity is treated as an inherited IRA and that the minimum distribution rules applicable in the event the IRA owner dies before the entire interest is distributed shall apply to the transferee IRA and the transferee IRA does not provide the beneficiaries with the special rules for surviving spouse beneficiaries;

b. a Roth IRA is an eligible retirement plan with respect to distributions from the fund that do not consist of designated Roth accounts, so long as the restrictions that apply to a transfer from a traditional IRA (non-Roth) to a Roth IRA are satisfied.

D. Eligible Rollover Distribution

1. If any portion of an eligible rollover distribution is attributable to payments or distributions from a designated Roth account, an eligible retirement plan with respect to such portion shall include only another designated Roth account of the individual from whose account the payments or distributions were made, or a Roth IRA of such individual.

2. Effective January 1, 2003, a portion of a distribution shall not fail to be an eligible rollover distribution merely because the portion consists of after-tax employee contributions that are not includible in gross income. However, such portion may be transferred only to an individual retirement account or annuity described in IRC §408(a) or (b), or to a qualified defined contribution plan described in IRC §§401(a) or 403(a) that agrees to separately account for amounts so transferred, including separately accounting for the portion of such distribution that is includible in gross income and the portion of such distribution that is not so includible.

3. Effective January 1, 2007, eligible rollover distributions shall include:

a. a distribution to a nonspouse beneficiary on account of the participant's death, so long as any rollover distribution is transferred to an individual retirement account or annuity that is treated as an inherited account of the deceased participant;

b. after-tax contributions held in a plan qualified under IRC §401(a).

4. Effective January 1, 2007, distributions from the plan that do not consist of designated Roth accounts shall be eligible rollover distributions with respect to a Roth IRA and may be rolled over to a Roth IRA, subject to the restrictions that apply to a transfer from a traditional (non-Roth) IRA to a Roth IRA.

5. During 2009, 2009 RMDs shall be treated as eligible rollover distributions for purposes of making available the direct rollover of eligible rollover distributions that include such amount, but not for purposes of withholding federal income taxes on the amount when it is distributed.

E. Repayment of Withdrawn Accumulated Contributions

1. As provided in R.S. 11:1617(B), payment may be made directly by the member or may be made on the member's behalf in a single sum payment by:

a. an individual retirement account; or

b. an individual retirement annuity; or

c. a plan qualified under IRC §§401(a), 403(a), 403(b), or 457(g).

2. Source of Contribution. Amounts contributed under Paragraph 1 of this Subsection shall not consist of amounts for which additional recordkeeping is required, such as after tax or Roth accounts. The trustees shall have discretion whether to accept contributions in any particular form.

AUTHORITY NOTE: Promulgated in accordance with the provisions of R.S. 11:1588(A), R.S. 11:1617(B), and the Administrative Procedure Act, R.S. 49.950 et seq.

Chapter 3. Creditable Service

§301. Benefits for Qualified Military Service

A. Death and Disability. As provided under R.S. 11:1614(F), the following shall apply.

1. In the case of a death or disability occurring on or after January 1, 2007, if a member dies or becomes disabled while performing qualified military service (as defined in IRC §414(u)), the member or the member's beneficiary is entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the plan as if the participant had resumed and then terminated employment on account of death.

a. Moreover, the plan will credit the member's qualified military service as service for vesting purposes, as though the member had resumed employment under USERRA immediately prior to the member's death.

B. Differential Wage Payments. If the member's employer makes differential wage payments during the member's qualified military service, then the member shall be credited with compensation for purposes of the system.

C. Qualified Military Service—any service in the uniformed services (as defined in chapter 43 of title 38, United States Code), by any individual if such individual is entitled to reemployment rights under such chapter with respect to such service.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A), R.S. 11:1614(F), and the provisions of the Administrative Procedure Act, R.S. 49.950 et seq.

Chapter 5. Limitation on Payment of Benefits

§501. Suspension of Benefits

A. As provided in R.S. 11:1631(E) and (F), if a member has commenced to receive distributions under R.S. 11:1632 or 1633, then benefits to such member shall be suspended upon his reemployment by a contributing employer to the system, and the suspension shall continue so long as he is still employed. If such member later terminates employment,

he shall commence to receive minimum distributions again and shall be entitled to elect the method of receiving such distributions, with his required beginning date to be determined based on the date of his termination of employment.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588(A) and R.S. 49.950 et seq.

§503. Definitions

A. Definitions. For purposes of this Title, the following definitions apply.

Annual Benefit—a benefit that is payable annually in the form of a straight life annuity.

Defined Benefit Dollar Limitation—effective for limitation years ending after December 31, 2001, \$160,000, automatically adjusted under IRC §415(d), effective January 1 of each year, as published in the *Internal Revenue Bulletin*, and payable in the form of a straight life annuity:

a. the new limitation shall apply to limitation years ending with or within the calendar year of the date of the adjustment, but a participant's benefits shall not reflect the adjusted limit prior to January 1 of that calendar year;

b. the automatic annual adjustment of the defined benefit dollar limitation under IRC §415(d) shall apply to participants who have had a separation from employment.

Required Beginning Date of a Member—April 1 of the calendar year following the year in which the plan member terminated employment with the employers that contribute to the system. Any required beginning date occurring in 2009 shall be extended for one year.

AUTHORITY NOTE: Promulgated in accordance with R.S. 11:1588A and R.S. 49.950 et seq.

HISTORICAL NOTE: Promulgated by the Board of Trustees of the District Attorneys' Retirement System, LR 41:

§505. Benefit Limitations

A. Maximum Permissible Benefit. As provided under R.S. 11:1632, the following provisions shall apply for limitation years beginning on or after July 1, 2007.

1. Annual Benefit—Maximum Permissible Benefit. The annual benefit, otherwise payable to a participant under the plan, at any time shall not exceed the maximum permissible benefit. If the benefit the participant would otherwise accrue in a limitation year would produce an annual benefit in excess of the maximum permissible benefit, then the benefit shall be limited (or the rate of accrual reduced) to a benefit that does not exceed the maximum permissible benefit.

2. Adjustment if in Two Defined Benefit Plans. If the participant is, or has ever been, a participant in another qualified defined benefit plan (without regard to whether the plan has been terminated) maintained by the employer or a predecessor employer, the sum of the participant's annual benefit from all such plans may not exceed the maximum permissible benefit. Where the participant's employer-provided benefits under all such defined benefit plans (determined as of the same age) would exceed the maximum permissible benefit applicable at that age, the employer shall limit a participant's benefit in accordance with the terms of the plans.

3. Limits Grandfathered prior to July 1, 2007

a. The following sentence in Clause i of this Subparagraph applies only if the provisions of such defined

benefit plans that were both adopted and in effect before April 5, 2007 satisfied the applicable requirements of statutory provisions, regulations, and other published guidance relating to IRC §415 in effect as of the end of the last limitation year beginning before July 1, 2007, as described in U.S. Treasury regulations §1.415(a)-1(g)(4).

i. The application of the provisions of this Part shall not cause the maximum permissible benefit for any participant to be less than the participant's accrued benefit under all the defined benefit plans of the employer or a predecessor employer as of the end of the last limitation year beginning before July 1, 2007 under provisions of the plans that were both adopted and in effect before April 5, 2007.

B. Annual Benefit Determination

1. Except as provided below, where a benefit is payable in a form other than a straight life annuity, the benefit shall be adjusted to an actuarially equivalent straight life annuity that begins at the same time as such other form of benefit and is payable on the first day of each month, before applying the limitations of this Part.

2. For a participant who has or will have distributions commencing at more than one annuity starting date, the annual benefit shall be determined as of each such annuity starting date (and shall satisfy the limitations of this Part as of each such date), actuarially adjusting for past and future distributions of benefits commencing at the other annuity starting dates.

a. For this purpose, the determination of whether a new annuity starting date has occurred shall be made:

i. without regard to U.S. Treasury regulations §1.401(a)-20, Q and A-10(d); and

ii. with regard to U.S. Treasury regulations §1.415(b)1(b)(1)(iii)(B) and (C).

3. The determination of the annual benefit shall take into account Social Security supplements described in IRC §411(a)(9) and benefits transferred from another defined benefit plan, other than transfers of distributable benefits pursuant to U.S. Treasury regulations §1.411(d)-4, Q and A-3(c), but shall disregard benefits attributable to employee contributions or rollover contributions.

C. Actuarial Adjustment. No actuarial adjustment to the benefit shall be made for:

1. survivor benefits payable to a surviving spouse under a qualified joint and survivor annuity to the extent such benefits would not be payable if the participant's benefit were paid in another form;

2. benefits that are not directly related to retirement benefits (such as a qualified disability benefit, preretirement incidental death benefits, and postretirement medical benefits); or

3. the inclusion in the form of benefit of an automatic benefit increase feature, provided the form of benefit is not subject to IRC §417(e)(3) and would otherwise satisfy the limitations of this Part, and the plan provides that the amount payable under the form of benefit in any limitation year shall not exceed the limits of this Part applicable at the annuity starting date, as increased in subsequent years pursuant to IRC §415(d).

a. For this purpose, an automatic benefit increase feature is included in a form of benefit if the form of benefit provides for automatic, periodic increases to the benefits paid in that form.

D. Actuarial Equivalent—Straight Life Annuity

1. Effective for distributions in plan years beginning after December 31, 2003, the determination of actuarial equivalence of forms of benefit other than a straight life annuity shall be made in accordance with Subparagraph a of this Paragraph.

a. The straight life annuity that is actuarially equivalent to the participant's form of benefit shall be determined under this Subparagraph if the form of the participant's benefit is either:

i. a nondecreasing annuity (other than a straight life annuity) payable for a period of not less than the life of the participant (or, in the case of a qualified pre-retirement survivor annuity, the life of the surviving spouse); or

ii. an annuity that decreases during the life of the participant merely because of:

(a). the death of the survivor annuitant (but only if the reduction is not below 50 percent of the benefit payable before the death of the survivor annuitant); or

(b). the cessation or reduction of Social Security supplements or qualified disability payments (as defined in IRC §401(a)(11)).

2. For limitation years beginning before July 1, 2007, the actuarially equivalent straight life annuity is equal to the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit computed using whichever of the following produces the greater annual amount:

a. the interest rate and mortality table (or other tabular factor) specified in the plan for adjusting benefits in the same form; and

b. 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

3. For limitation years beginning on or after July 1, 2007, the actuarially equivalent straight life annuity is equal to the greater of:

a. the annual amount of the straight life annuity (if any) payable to the participant under the plan commencing at the same annuity starting date as the participant's form of benefit; and

b. the annual amount of the straight life annuity commencing at the same annuity starting date that has the same actuarial present value as the participant's form of benefit, computed using a 5 percent interest rate assumption and the applicable mortality table defined in the plan for that annuity starting date.

Chapter 7. Required Minimum Distributions

§701. Required Beginning Date

A. Definition

Required Beginning Date of a Participant who is a 5 Percent Owner of an Adopting Employer—the first day of April of the calendar year following the calendar year in which the participant attains age 70 1/2. The required beginning date for benefit distributions to a participant other than a 5 percent owner shall be the first day of April of the calendar year following the calendar year in which the later of the following occurs: the participant attains age 70 1/2, or

the participant retires. Once distributions have begun to a 5 percent owner under this Section, they must continue to be distributed, even if the participant ceases to be a 5 percent owner in a subsequent year.

B. Annuity Distributions

1. Benefits due to a member who is eligible for retirement under R.S. 11:1632, 1633, or 1634 shall commence on or before the required beginning date.

2. Death before Date Distributions Begin. If the member dies before distribution of his or her interest begins, distribution of the member's interest in the applicable account(s) will be distributed or begin to be distributed, no later than as follows.

a. Member Survived by Designated Beneficiary. If the member dies before the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the remaining life expectancy of the member's designated beneficiary.

b. No Designated Beneficiary. If the member dies before the date distributions begin and there is no designated beneficiary as of September 30 of the year following the year of the member's death, distribution of the member's interest in the applicable account(s) will be completed by December 31 of the calendar year containing the fifth anniversary of the member's death.

c. Death of Surviving Spouse Before Distributions to Surviving Spouse Are Required to Begin. If the member dies before the date distributions begin, the member's surviving spouse is the member's sole designated beneficiary, and the surviving spouse dies before distributions are required to begin to the surviving spouse under Paragraph C.6 of this Section, this Section will apply as if the surviving spouse were the member.

d. For purposes of this Section, any amount paid to a child of the member will be treated as if it had been paid to the surviving spouse if the amount becomes payable to the surviving spouse when the child reaches the age of majority.

e. For the purposes of this Section, distribution of a member's interest in the applicable account(s) is considered to begin on the member's required beginning date (or, if Subparagraph c of this Paragraph is applicable, the date distribution is required to begin to the surviving spouse pursuant to Subparagraph a of this Paragraph).

C. Applicable Accounts

1. This Subsection shall apply with respect to any account that is part of the system that is considered to be a defined contribution account within the system. This Subsection shall apply to the refund of accumulated contributions as provided in R.S. 11:1635, to the Back-Deferred Retirement Option Program account as provided in R.S. 11:1644 and to the Deferred Retirement Option Plan account as formerly provided in R.S. 11:1639-1643 before repeal (hereinafter referred to as "applicable account" or "accounts").

2. The applicable account(s) of a member must be distributed or begin to be distributed no later than the member's required beginning date. The first distribution calendar year shall be the calendar year in which the member attains age 70 1/2 or has a severance from employment with the employer maintaining this system, if

later. Distribution shall be made over a period not longer than that provided under this Subsection.

3. **Death of Member before Distributions Begin.** If the member dies before distributions begin, the member's applicable account(s) will be distributed, or begin to be distributed, no later than as follows.

a. If the member's surviving spouse is the member's sole designated beneficiary, then distributions to the surviving spouse will begin by December 31 of the calendar year immediately following the calendar year in which the member died, or by December 31 of the calendar year in which the member would have attained age 70 1/2, if later.

b. If the member's surviving spouse is not the member's sole designated beneficiary, then distributions to the designated beneficiary will be made or will begin by December 31 of the calendar year immediately following the calendar year in which the member died.

c. If there is no designated beneficiary as of September 30 of the year following the year of the member's death, the member's applicable account will be distributed by December 31 of the calendar year containing the fifth anniversary of the member's death.

d. If the member's surviving spouse is the member's sole designated beneficiary and the surviving spouse dies after the member but before distributions to the surviving spouse are required to begin, this Subsection (other than Subparagraph a of this Paragraph) will apply as if the surviving spouse were the member. For purposes of this Subsection, distributions are considered to begin on the member's required beginning date, or if applicable, on the date distributions are required to begin to the surviving spouse. The date distributions are considered to begin is the date distributions actually commence.

4. **Forms of Distribution.** Unless the member's interest is distributed in a single-sum on or before the required beginning date, as of the first distribution calendar year, distributions will be made in accordance with this Subsection.

5. **Required Minimum Distribution for each Distribution Calendar Year.** If the member's interest in the applicable account(s) is to be distributed in other than a single sum, the following minimum distribution rules shall apply on or after the required beginning date.

a. During the member's lifetime, the minimum amount that will be distributed for each distribution calendar year is the lesser of:

i. the quotient obtained by dividing the member's account balance by the distribution period in the uniform lifetime table set forth in 26 CFR §1.401(a)(9)-9, Q and A-2, using the member's age as of the member's birthday in the distribution calendar year; or

ii. if the member's sole designated beneficiary for the distribution calendar year is the member's spouse, the quotient obtained by dividing the member's account balance by the number in the joint and last survivor table set forth in 26 CFR §1.401(a)(9)-9, Q and A-3, using the member's and spouse's attained ages as of the member's and spouse's birthdays in the distribution calendar year.

b. Required minimum distributions will be determined under this Section beginning with the first distribution calendar year and continuing up to, and

including, the distribution calendar year that includes the member's date of death.

c. **Member's Benefit**—the account balance of the applicable account or accounts as of the last valuation date in the calendar year immediately preceding the distribution calendar year increased by the amount of any contributions allocated to the applicable account balance as of dates in the distribution calendar year with respect to the first distribution year, after the valuation date and decreased by distributions made in the distribution calendar year after the valuation date.

i. For purposes of Subparagraph c of this Paragraph, if any portion of the minimum distribution for the first distribution calendar year is made in the second distribution calendar year on or before the required beginning date, the amount of the minimum distribution made in the second distribution calendar year shall be treated as if it had been in the immediately preceding distribution calendar year.

6. **Required Minimum Distributions after Member's Death.** If the member dies after distribution of his or her applicable account(s) has begun, the remaining portion of such account(s) will continue to be distributed at least as rapidly as under the method of distribution being used prior to the member's death.

a. **Member is Survived by Designated Beneficiary.** If the member dies on or after the date distributions begin and there is a designated beneficiary, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the longer of the remaining life expectancy of the member or the remaining life expectancy of the member's designated beneficiary, determined as follows.

i. The member's remaining life expectancy is calculated using the age of the member in the year of death, reduced by one for each subsequent year.

ii. If the member's surviving spouse is the member's sole designated beneficiary, the remaining life expectancy of the surviving spouse is calculated for each distribution calendar year after the year of the member's death using the surviving spouse's age as of the spouse's birthday in that year. For distribution calendar years after the year of the surviving spouse's death, the remaining life expectancy of the surviving spouse is calculated using the age of the surviving spouse as of the spouse's birthday in the calendar year of the spouse's death, reduced by one for each subsequent calendar year.

iii. If the member's surviving spouse is not the member's sole designated beneficiary, the designated beneficiary's remaining life expectancy is calculated using the age of the beneficiary in the year following the year of the member's death, reduced by one for each subsequent year.

b. **No Designated Beneficiary.** If the member dies on or after the date distributions begin and there is no designated beneficiary as of September 30 of the year after the year of the member's death, the minimum amount that will be distributed for each distribution calendar year after the year of the member's death is the quotient obtained by dividing the member's account balance by the member's remaining life expectancy calculated using the age of the

member in the year of death, reduced by one for each subsequent year.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: District Attorneys' Retirement System

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change will result in an increase in expenditures for the District Attorneys' Retirement System (DARS) in the amount of \$25,000 in FY 2015-16. The purpose of the rule change is to codify current practices and to comply with Internal Revenue Service requirements for qualification of the District Attorneys' Retirement System under Section 401(a) of the Internal Revenue Code. The increase in expenditures is for professional services, including attorney fees for filing with Internal Revenue Service and for filing fees and correction charges.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change may result in a decrease in revenue collections to state governmental units. District attorney's offices that were not deducting employee contributions before taxes will now make pre-tax deductions, which may result in a decrease in state tax collections. The exact amount is indeterminable since it is unknown how many offices do not provide pre-tax deductions. Some employees directly rolling qualified funds from or to DARS will defer tax on such funds because of the ability to roll over these funds tax free.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule change may save or postpone Federal income taxes (and attendant state taxes) for individuals seeking to transfer funds from other state retirement systems for their benefit under the DARS. It may save or postpone Federal income taxes for individuals receiving a lump sum or partial lump sum distribution from DARS because they will be able to roll the funds over tax free. Members of DARS that did have contributions deducted pre-tax will now have contributions deducted pre-tax.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule change will have no effect on competition or employment.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: **Bulletin 138—Jump Start Program—Student Participation**

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

There will be an indeterminable impact to MFP funding as a result of the proposed revisions, which provide guidance for delineating between the internships that are included in BESE approved Jump Start Graduation Pathways. Depending on the type of internship offered, school districts can receive extra funds through the Career and Technical Education weight (6% add on) and/or the Career Development Fund component of the MFP (additional 6% add on) for Jump Start internships. Changes in the reporting requirement should result in a more accurate enrollment count of students in eligible internships, which could impact MFP allocations for the school districts.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

This policy will have no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

There will be no estimated cost and/or economic benefit to directly affected persons or non-governmental groups.

In June, BESE approved the addition of chapters regarding the Child Care Assistance Program (CCAP) household eligibility, administration of school readiness tax credits, and Louisiana Pathways early learning center career development system. Additionally, this revision authorizes the Department of Education administration of CCAP household eligibility, SRTC, and Pathways, after July 1, 2015, (the date the LDE is officially lead agency for CCDF), and makes minor administrative changes to existing DCFS regulations to reflect the transition.

The fiscal impact for FY 2017-2018 and beyond is indeterminable as BESE has not yet promulgated rules for the replacement of the Quality Start Rating Program, which will terminate on June 30, 2017, which will be done through Bulletin 140 in summer 2016.

As part of the Child Care and Development Fund (CCDF) transition, per by Act 868 (2014), BESE approved the establishment of Bulletin 139 at the March 2015 meeting and also approved revisions to the policy at the April 2015 meeting. Department of Environmental Quality Office of the Secretary Legal Division

Decommissioning Planning
(LAC 33:XV.325, 331, 332, 430, and 1755) (RP059ft)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been initiated to amend the Radiation Protection regulations, LAC 33:XV.325, 331, 332 and 430 (Log #RP059ft).

This Rule is identical to federal regulations found in 10 CFR 20, 30, 40, and 70, which are applicable in Louisiana. For more information regarding the federal requirement, contact the Regulation Development Section at (225) 219-3985 or Box 4302, Baton Rouge, LA 70821-4302. No fiscal or economic impact will result from the Rule. This Rule will be promulgated in accordance with the procedures in R.S. 49:953(F)(3) and (4).

This Rule makes minor changes to the requirements for financial assurance and recordkeeping for decommissioning; criteria for license terminations; terms and conditions of licenses; and inalienability of licenses. The Nuclear Regulatory Commission (NRC) promulgated these changes

as RATS ID 2011-1. This Rule will update the state regulations to be compatible with the revisions in the federal regulations. The changes in the state regulations are category A, B, C and H and S requirements for the state of Louisiana to remain an NRC agreement state. The basis and rationale for this Rule are to mirror the federal regulations and maintain an adequate agreement state program. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

a. a detailed cost estimate for decommissioning, in an amount reflecting:

i. the cost of an independent contractor to perform all decommissioning activities;

ii. the cost of meeting the criteria in LAC 33:XV.332.D.1.iii for unrestricted use, provided that, if the applicant or licensee can demonstrate its ability to meet the provisions of LAC 33:XV. 332.F, the cost estimate may be based on meeting the criteria in LAC 33:XV.332.F;

iii. the volume of on-site subsurface material containing residual radioactivity that will require remediation to meet the criteria for license termination; and

iv. an adequate contingency factor; and

b. identification of and justification for using the key assumptions contained in the decommissioning cost estimate;

c. a description of the method of assuring funds for decommissioning from Paragraph D.8 of this Section, including means of adjusting cost estimates and associated funding levels periodically over the life of the facility;

d. a certification by the licensee that financial assurance for decommissioning has been provided in the amount of the cost estimate for decommissioning; and

e. a signed original of the financial instrument obtained to satisfy the requirements of Paragraph D.8 of this Section (unless a previously submitted and accepted financial instrument continues to cover the cost estimate for decommissioning).

7. At the time of license renewal and at intervals not to exceed three years, the decommissioning funding plan shall be resubmitted with adjustments as necessary to account for changes in costs and the extent of contamination. If the amount of financial assurance will be adjusted downward, this cannot be done until the updated decommissioning funding plan is approved. The decommissioning funding plan shall update the information submitted with the original or prior approved plan, and shall specifically consider the effect of the following events on decommissioning costs:

a. spills of radioactive material producing additional residual radioactivity in on-site subsurface material;

b. waste inventory increasing above the amount previously estimated;

c. waste disposal costs increasing above the amount previously estimated;

d. facility modifications;

Prepayment may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities.

b. Surety Method, Insurance, or Other Guarantee Method. These methods guarantee that decommissioning costs will be paid. A surety method may be in the form of a surety bond, letter of credit, or line of credit. A parent company guarantee of funds for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in LAC 33:XV.399.Appendix B. A parent company guarantee may not be used in combination with other financial methods to satisfy the requirements of this Section. For commercial corporations that issue bonds, a guarantee of funds by the applicant or licensee for decommissioning costs based on a financial test may be used if the guarantee and test are as contained in LAC 33:XV.399.Appendix B. For commercial companies that do not issue bonds, a guarantee of funds by the applicant or licensee for decommissioning costs may be used if the guarantee and test are as contained in LAC 33:XV.399.Appendix E. For nonprofit entities, such as colleges, universities, and nonprofit hospitals, a guarantee of funds by the applicant or licensee may be used if the guarantee and test are as contained in LAC 33:XV.399.Appendix F. A guarantee by the applicant or licensee may not be used in combination with any other financial methods used to satisfy the requirements of this Section or in any situation where the applicant or licensee has a parent company holding majority control of the voting stock of the company. Any surety method or insurance used to provide financial assurance for decommissioning shall contain the following conditions.

i. The surety method or insurance must be open-ended or, if written for a specified term, such as five years, must be renewed automatically unless 90 days or more prior to the renewal date, the issuer notifies the Office of Environmental Compliance, the beneficiary, and the licensee of its intention not to renew. The surety method or insurance must also provide that the full face amount be paid to the beneficiary automatically prior to the expiration without proof of forfeiture if the licensee fails to provide a

replacement acceptable to the department within 30 days after receipt of notification of cancellation.

ii. The surety method or insurance must be payable to a trust established for decommissioning costs. The trustee and trust must be acceptable to the department. An acceptable trustee includes an appropriate state or federal government agency or an entity that has the authority to act as a trustee and whose trust operations are regulated and examined by a federal or state agency.

iii. The surety method or insurance must remain in effect until the department has terminated the license.

c. External Sinking Fund. An external sinking fund shall have deposits made to it at least annually, and be coupled with a surety method or insurance, the value of which may decrease by the amount being accumulated in the sinking fund. An external sinking fund is a fund established and maintained by setting aside funds periodically in an account segregated from licensee assets and outside the licensee's administrative control in which the total amount of funds would be sufficient to pay decommissioning costs at the time termination of operation is expected. An external sinking fund may be in the form of a trust, escrow account, government fund, certificate of deposit, or deposit of government securities. The surety or insurance provisions must be as stated in Subparagraph D.8.b of this Section.

d. Statement of Intent. In the case of federal, state, or local government licensees, a statement of intent shall be included containing a cost estimate for decommissioning or an amount based on the table in Paragraph D.5 of this Section, and indicating that funds for decommissioning will be obtained when necessary.

e. Arrangement with Governmental Entity. When a governmental entity is assuming custody and ownership of a site, an arrangement shall be made that is deemed acceptable by such governmental entity.

9. Each person licensed under this Chapter shall keep records of information important to the decommissioning of the facility in an identified location until the site is released for unrestricted use. Before licensed activities are transferred or assigned in accordance with LAC 33:XV.331.B, licensees shall transfer all records described in this Paragraph to the new licensee. In this case, the new licensee will be responsible for maintaining these records until the license is terminated. If records important to the decommissioning of a facility are kept for other purposes, reference to these records and their locations may be used. Information the department considers important to decommissioning consists of the following:

a. records of spills or other unusual occurrences involving the spread of contamination in and around the facility, equipment, or site. These records may be limited to instances when contamination remains after any cleanup procedures or when there is reasonable likelihood that contaminants may have spread to inaccessible areas as in the case of possible seepage into porous materials such as concrete. These records must include any known information on identification of involved nuclides, quantities, forms, and concentrations;

b. as-built drawings and modifications of structures and equipment in restricted areas where radioactive materials are used and/or stored, and of locations of possible

inaccessible contamination such as buried pipes that may be subject to contamination. If required drawings are referenced, each relevant document need not be indexed individually. If drawings are not available, the licensee shall substitute appropriate records of available information concerning these areas and locations;

c. records of the cost estimate performed for the decommissioning funding plan or of the amount certified for decommissioning, and records of the funding method used for assuring funds if either a funding plan or certification is used;

d. except for areas containing only sealed sources (provided the sources have not leaked or no contamination remains after any leakage has occurred) or radioactive materials having only half-lives of less than 65 days, a list contained in a single document and updated every two years that shall be kept on the following:

i. all areas designated and formerly designated *restricted areas* as defined in LAC 33:XV.102;

ii. all areas outside of restricted areas that require documentation under Subparagraph D.9.a of this Section;

iii. all areas outside of restricted areas where current and previous wastes have been buried, as documented under LAC 33:XV.478; and

iv. all areas outside of restricted areas that contain material such that, if the license expired, the licensee would be required to either decontaminate the area to meet the criteria for decommissioning in LAC 33:XV.332.E, or apply for approval for disposal under LAC 33:XV.461.

§332. Expiration and Termination of Licenses and Decommissioning of Sites and Separate Buildings or Outdoor Areas

A. - E.2. ...

F. A site will be considered acceptable for license termination under restricted conditions if:

1. the licensee can demonstrate that further reductions in residual radioactivity necessary to comply with the provisions of Clause D.1.e.iii of this Section would result in net public or environmental harm or were not being made because the residual levels associated with restricted conditions are ALARA (determination of the levels which are ALARA shall take into account consideration of any detriments, such as traffic accidents, expected to potentially result from decontamination and waste disposal);

2. the licensee has made provisions for legally enforceable institutional controls that provide reasonable assurance that the *total effective dose equivalent* (TEDE), as defined in LAC 33:XV.102, from residual radioactivity distinguishable from background to the average member of the critical group will not exceed 25 mrem (0.25 mSv) per year;

3. the licensee has provided sufficient financial assurance to enable an independent third party, including a governmental custodian of a site, to assume and carry out responsibilities for any necessary control and maintenance of the site. Acceptable financial assurance mechanisms include:

a. funds placed into a trust segregated from the licensee's assets and outside the licensee's administrative control, and in which the adequacy of the trust funds is to be assessed based on an assumed annual one percent real rate of return on investment;

b. a statement of intent in the case of federal, state, or local government licensees, as described in LAC 33:XV.325.D.7.d; or

c. when a governmental entity is assuming custody and ownership of a site (an arrangement that is deemed acceptable by such governmental entity); and

4. the licensee has submitted a decommissioning plan or license termination plan (LTP) to the department indicating the licensee's intent to decommission in accordance with Subparagraph D.6.a of this Section, and specifying that the licensee intends to decommission by restricting use of the site. The licensee shall document in the LTP or decommissioning plan how the advice of individuals and institutions in the community who may be affected by the decommissioning has been sought and incorporated, as appropriate, following analysis of that advice:

a. licensees proposing to decommission by restricting use of the site shall seek advice from such affected parties regarding the following matters concerning the proposed decommissioning:

i. whether provisions for institutional controls proposed by the licensee:

(a). will provide reasonable assurance that the TEDE from residual radioactivity distinguishable from background to the average member of the critical group will not exceed 25 mrem (0.25 mSv) TEDE per year;

(b). will be enforceable; and

(c). will not impose undue burdens on the local community or other affected parties; and

ii. whether the licensee has provided sufficient financial assurance to enable an independent third party, including a governmental custodian of a site, to assume and carry out responsibilities for any necessary control and maintenance of the site;

b. in seeking advice on the issues identified in Subparagraph F.4.a of this Section, the licensee shall provide for:

i. participation by representatives of a broad cross section of community interests who may be affected by the decommissioning;

ii. an opportunity for a comprehensive, collective discussion on the issues by the participants represented; and

iii. a publicly available summary of the results of all such discussions, including a description of the individual viewpoints of the participants on the issues and the extent of agreement and disagreement among the participants on the issues; and

5. residual radioactivity at the site has been reduced so that if the institutional controls were no longer in effect, there is reasonable assurance that the TEDE from residual radioactivity distinguishable from background to the average member of the critical group is as low as reasonably achievable and would not exceed either:

a. 100 mrem (1 mSv) per year; or

b. 500 mrem (5 mSv) per year provided the licensee:

i. demonstrates that further reductions in residual radioactivity necessary to comply with the 100 mrem/y (1 mSv/y) value of Subparagraph F.5.a of this Section are not technically achievable, would be prohibitively expensive, or would result in net public or environmental harm;

ii. makes provisions for durable institutional controls; and

iii provides sufficient financial assurance to enable a responsible government entity or independent third party, including a governmental custodian of a site, both to carry out periodic rechecks of the site no less frequently than every five years to assure that the institutional controls remain in place as necessary to meet the criteria of Paragraph F.2 of this Section, and to assume and carry out responsibilities for any necessary control and maintenance of those controls (acceptable financial assurance mechanisms are those in Paragraph F.3 of this Section).

G. Alternate Criteria for License Termination

1. The department may terminate a license using alternate criteria greater than the dose criterion in this Section if the licensee:

a. provides assurance that public health and safety would continue to be protected, and that it is unlikely that the dose from all man-made sources combined, other than medical, would be more than the 1 mSv/y (100 mrem/y) limit in LAC 33:XV.421 and 422, by submitting an analysis of possible sources of exposure;

b. has employed to the extent practical restrictions on site use according to the provisions of Subsection F of this Section in minimizing exposures at the site;

c. reduces doses to ALARA levels, taking into consideration any detriments such as traffic accidents expected to potentially result from decontamination and waste disposal;

d. has submitted a decommissioning plan or license termination plan (LTP) to the department indicating the licensee's intent to decommission in accordance with Subparagraph D.6.a of this Section, and specifying that the licensee proposes to decommission by use of alternate criteria. The licensee shall document in the decommissioning plan or LTP how the advice of individuals and institutions in the community who may be affected by the decommissioning has been sought and addressed, as appropriate, following analysis of that advice. In seeking such advice, the licensee shall provide for:

i. participation by representatives of a broad cross section of community interests who may be affected by the decommissioning;

ii. an opportunity for a comprehensive, collective discussion on the issues by the participants represented; and

iii. a publicly available summary of the results of all such discussions, including a description of the individual viewpoints of the participants on the issues and the extent of agreement and disagreement among the participants on the issues; and

e. has provided sufficient financial assurance in the form of a trust fund to enable an independent third party, including a governmental custodian of a site, to assume and carry out responsibilities for any necessary control and maintenance of the site.

2. The use of alternate criteria to terminate a license requires the approval of the department after consideration of the staff's recommendations that will address any comments provided by the Nuclear Regulatory Commission, the Environmental Protection Agency, and any public comments submitted in accordance with Subsection H of this Section.

H. Public Notification and Public Participation

1. Upon the receipt of an LTP or decommissioning plan from the licensee, or a proposal by the licensee for release of a site in accordance with Subsection F or G of this Section, or whenever the department deems such notice to be in the public interest, the department shall:

a. notify and solicit comments from:

i. local and state governments in the vicinity of the site and any Indian nation or other indigenous people that have treaty or statutory rights that could be affected by the decommissioning; and

ii. the Environmental Protection Agency for cases where the licensee proposes to release a site in accordance with Subsection G of this Section; and

b. publish a notice in the *Louisiana Register* and in a forum, such as local newspapers, letters to state or local organizations, or other appropriate forum that is readily accessible to individuals in the vicinity of the site, and solicit comments from affected parties.

I. Minimization of Contamination

1. Applicants for licenses, other than early site permits and manufacturing licenses under 10 CFR 52 and renewals, whose applications are submitted after August 20, 1997, shall describe in the application how facility design and procedures for operation will minimize, to the extent practicable, contamination of the facility and the environment, facilitate eventual decommissioning, and minimize, to the extent practicable, the generation of radioactive waste.

2. Licensees shall, to the extent practical, conduct operations to minimize the introduction of residual radioactivity into the site, including the subsurface, in accordance with the existing radiation protection requirements in LAC 33:XV.406 and radiological criteria for license termination in this Section.

AUTHORITY NOTE: Promulgated in accordance with R.S. 30:2001 et seq. and 2104.B.

1. may be necessary for the licensee or registrant to comply with this Chapter; and

2. are reasonable under the circumstances to evaluate:

a. the magnitude and extent of radiation levels;

b. ...

c. the potential radiological hazards of the radiation levels and residual radioactivity detected.

B. - D. ...

E. Notwithstanding LAC 33:XV.472.A, records from surveys describing the location and amount of subsurface residual radioactivity identified at the site shall be kept with records important for decommissioning, and such records shall be retained in accordance with LAC 33:XV.325.D.9 as applicable.

NOTICE OF INTENT

Department of Environmental Quality Office of the Secretary Legal Division

Incorporation by Reference—Test Procedures for the Analysis of Pollutants and Effluent Guidelines and Standards (LAC 33:IX.4901 and 4903)(WQ093ft)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been

initiated to amend the Water Quality regulations, LAC 33:IX, 4901 and 4903 (Log #WQ093ft).

This Rule is identical to federal regulations found in *Federal Register* title 40, volume 23, part 136; volume 29 parts 401 and 405-471, which are applicable in Louisiana. For more information regarding the federal requirement, contact the Regulation Development Section at (225) 219-3985 or P.O. Box 4302, Baton Rouge, LA 70821-4302. No fiscal or economic impact will result from the Rule. This Rule will be promulgated in accordance with the procedures in R.S. 49:953(F)(3) and (4).

This Rule changes the reference dates to 40 CFR Part 136 and 40 CFR chapter I, subchapter N, parts 401, 405-471 in the LAC 33:IX, Chapter 49 to July 1, 2014. LAC 33:IX, Chapter 49 incorporates the following portions of federal regulations into the Louisiana water quality regulations:

1. 40 CFR part 136, Guidelines Establishing Test Procedures for the Analysis of Pollutants, July 1, 2014, in its entirety; and
2. 40 CFR chapter I, subchapter N, Effluent Guidelines and Standards, parts 401 and 405-471, July 1, 2014.

This action will incorporate the recently updated federal regulations into Louisiana's water quality regulations, increasing the enforceability of LPDES permits that include EPA-approved analytical methods and effluent limitations guidelines. The basis and rationale for this Rule are to mirror the federal regulations. This Rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required.

APA—the Administrative Procedure Act.

Application—the forms, information, attachments, and fees necessary to obtain a license as a professional geoscientist or a certification as a geoscientist-in-training.

Certificate—the credential granted by the board signifying the holder has met the requirements as set out in the Act and this Chapter and is qualified to be a geoscientist-in-training.

Certification, Certified, Certificant or Certificate Holder—the recognition granted by the board and its issuance of a Credential to any individual seeking such recognition as geoscientist-in-training, who has been successfully examined and is otherwise in good standing with the board.

Cheating—attempting to obtain, obtaining, providing, or using answers to examination questions by deceit, fraud, dishonesty, or deception.

The executive secretary of the board will mail a renewal notice and the requirements for renewal to the last recorded address of each license/certificate holder, at least 30 days prior to the expiration date of the license. Regardless of whether the renewal notice is received, it is the sole responsibility of the license/certificate holder to apply for renewal and to pay any applicable fee(s).

1. An applicant may renew a current license/certificate up to 60 days in advance of its expiration.

2. Licenses/certificates become inactive the day after their expiration date.

3. The renewal fee for a license that is renewed within 60 days of inactivation is the fee in place at the time the license was due to expire.

4. A completed renewal application including applicable fees received or postmarked 61 days after the license/certificate expiration date is considered late. The then current application fee increase will be assessed in addition to a late penalty fee.

5. A license/certificate that has been inactive for 12 months but less than 3 years after the expiration date is considered expired but may be renewed by submitting to the board a renewal application, the annual renewal fee for each year missed plus the current year's renewal fee, and the late penalty fee. An expired license/certificate may be renewed within three years of the expiration date by paying all delinquent fees.

6. A license/certificate that has been expired for a period greater than three years after the expiration date is considered permanently retired and may not be renewed. The former license holder may re-apply for a new license as provided by the Act at the time of re-application.

B. The board may refuse to renew a license/certificate if the license/certificate holder is the subject of a lawsuit regarding his/her practice of geoscience or is found censurable for a violation of board laws or rules that would warrant such disciplinary action under R.S. 37:711.23.

C. Licensees must complete a statement of affirmation indicating whether the licensee practiced as a P.G. during the period when the license was inactive/expired. Information regarding unlicensed non-exempt public geoscience practice received under this section shall be referred to the compliance committee for appropriate action that could include the initiation of a complaint by the board.

D. As per R.S. 37:711.23, the board may suspend or revoke a license/certificate as disciplinary action against a license/certificate holder who is found censurable for a violation or rules.

1. A license/certificate that has been suspended can be reinstated by the board only if the suspended license/certificate holder complies with all conditions of the suspension, which may include payment of fines, continuing education requirements, participation in a peer review program or any other disciplinary action outlined in the Act.

2. A license/certificate that has been revoked can be re-instated only if a majority vote by the board approves reinstatement, after the applicant:

a. re-applies and submits all required application materials and fees;

b. successfully completes an examination in the discipline of geoscience if the applicant has not previously passed said examination(s); and

c. provides evidence to demonstrate competency and that future compliance with the Act and rules of the board.

E. A license/certificate holder is exempt from any increased fee or other penalty imposed in this Section for failing to renew the license in a timely manner if the license holder provides adequate documentation, including copies of orders, to establish to the satisfaction of the board that the license holder failed to renew in a timely manner due to active duty service in the United States Armed Forces outside of Louisiana.

Chapter 13. Continuing Education Program (CEP)

§1301. Requirements

A. Each license holder shall meet the continuing education program (CEP) requirements for professional development by earning professional development credit hours (PDH) as a condition for license renewal.

1. Every P.G. license holder is required to obtain 15 PDH hours of continuing education credit per year for license renewal.

2. A minimum of one PDH hour per renewal period must be in the area of professional ethics, roles and responsibilities of professional geoscientists.

3. If a license holder exceeds the annual requirement in any renewal period, a maximum of 30 PDH hours may be carried forward into subsequent renewal periods, but not beyond three years. Credits earned more than three years prior to the renewal year will not be accepted for fulfilling continuing education requirements.

B. Definition of Terms. Terms used in this Section are as follows.

Accredited Continuing Education Unit (ACEU)—unit of credit customarily used for ACEU. One ACEU equals 10 hours (10 PDH) of class in the accredited continuing education course.

College Semester Hour (CSH)/College Quarter Hour (CQH)—credit for a college course in a discipline of geoscience or other related technical elective of the discipline. One CSH equals 15 hours (15 PDH) of class in a college semester course. One CQH equals 10 hours (10 PDH) of class in a college quarter course.

Continuing Education Course/Activity (CECA)—any course/activity with a clear purpose and objective which will maintain, improve, or expand the skills and knowledge relevant to the license holder's field of practice. One CECA hour equals one PDH.

Professional Development Hour (PDH)—a contact hour (clock hour) of CEP activity. The PDH is the basic unit for CEP reporting. One hour equals one PDH.

C. Earned Credits

1. All activities described in this Subsection shall be relevant to the practice of a discipline of geoscience and may include technical, ethical, or managerial content. The following activities will earn PDH credits pending board approval at the time of audit:

a. successful completion, auditing or teaching/instructing of college credit courses (CSH/CQH). Credit for college or community college approved courses will be based upon course credit established by the college;

b. successful completion or teaching/instructing of continuing education courses (ACEU or CECA), either offered by a professional or trade organization, university or college, or offered in-house by a corporation, other business entity, professional or technical societies, associations, agencies, or organizations, or other group;

c. successful completion or teaching/instructing of correspondence, on-line, televised, videotaped, and other short courses/tutorials (CSH/CQH, ACEU or CECA);

d. registered attendance or teaching/instructing of seminars, courses, workshops, or professional or technical presentations made at meetings, conventions, or conferences sponsored by a corporation, other business entity, professional or technical societies, associations, agencies, or organizations, or other group (CECA).

i. Credit for qualifying seminars, short courses and workshops will be based on one PDH credit for each hour of attendance.

ii. Attendance at qualifying programs presented at professional and/or technical society meetings will earn PDH credits for the actual time of each program.

iii. A maximum of 12 PDH credits can be earned at society meetings each renewal period.

2. Teaching or instructing as listed in Paragraphs 1-4 of this Subsection will earn triple PDH credits. Teaching credit is valid for teaching a course or seminar for the first time only.

3. Authoring (as lead author) Published Papers, Articles, Books, or Accepted Licensing Examination Items. Credit determination for authorship as described in this subsection is the responsibility of the license holder and subject to review as required by the board. Maximum 10 PDH per paper and 45 PDH per book.

4. Active Participation (CECA) in Professional or Technical Societies, Associations, Agencies, or Organizations in activities such as those described below. PDH credits are not earned until the end of each year of

service is completed. Maximum of five PDH per renewal period:

- a. serving as an elected or appointed official of the organization;
- b. serving and actively participating on a committee of the organization; or
- c. serving in other official positions such as making or attending a presentation at a meeting or writing a paper presented at a meeting.

5. Engaging in Self-Directed Course Work (ACEU or CECA). Credit determination for self-directed course work is the responsibility of the license holder and subject to review as required by the board. Credit for self-directed course work will be based on one PDH credit for each hour of study and is not to exceed five PDH per renewal period.

6. Patents issued—maximum 15 PDH per patent.

7. Software programs published—maximum 15 PDH per program.

D. Determination of Credit

1. The board shall be the final authority with respect to whether a course or activity meets the requirements of this Chapter.

2. It is the responsibility of each license holder to use his/her best professional judgment by reading and utilizing the rules and regulations to determine whether all PDH credits claimed and activities being considered meet the continuing education requirement. However, a course provider may contact the board for an opinion for whether or not a course or technical presentation would meet the CEP requirements.

E. Record Keeping

1. The license holder is responsible for maintaining records to be used to support credits claimed. CEP records for each license holder must be maintained for a period of three years by the license holder. Records required include, but are not limited to:

a. a log, on a form provided by the board, showing the type of activity claimed, the sponsoring organization, location, duration, instructor's or speaker's name, and PDH credits claimed; and

b. attendance verification records in the form of completion certificates, receipts, attendance roster, or other documents supporting evidence of attendance.

F. CEP Audit

1. The records for each license holder are subject to audit by the board or its authorized representative.

a. The license holder must submit CEP certification on the log form provided by the board and a list of each activity, date, and hours claimed that satisfy the CEP requirement for that renewal year when audited. A percentage of the licenses will be randomly audited each year.

b. Copies must be furnished, if requested, to the board or its authorized representative for audit verification purposes.

c. If upon auditing a license holder, the board finds that the activities cited do not fall within the bounds of educational, technical, ethical, or professional management activities related to the practice of geoscience; the board may require the license holder to acquire additional PDH credits as needed to fulfill the minimum CEP requirements before said license will be renewed.

G. Exemptions

1. A license holder may be exempt from the professional development educational requirements for one of the following reasons.

a. A license holder serving on active duty and deployed outside the United States, its possessions and territories, in or for the military service of the United States for a period of time exceeding 120 consecutive days in a year shall be exempt from obtaining the professional development hours required during that year.

b. A license holder employed outside the United States, its possessions and territories, actively engaged in the practice of geoscience for a period of time exceeding 300 consecutive days in a year shall be exempt from obtaining the professional development hours required during that year except for five hours of self-directed course work.

c. License holders experiencing long term physical disability or illness may be exempt. Supporting documentation must be furnished to the board.

H. Noncompliance

1. If a license holder does not certify that CEP requirements have been met for a renewal period, the license shall be considered expired and subject to late fees and penalties.

2. A license holder may bring an expired license to active status by obtaining all delinquent PDH units. However, if the total number required to become current exceeds 30 units, then 30 units shall be the maximum number required.

3. A determination by audit that CEP requirements have been falsely reported shall be considered to be misconduct and will subject the license holder to disciplinary action.

AUTHORITY NOTE: Promulgated in accordance with R.S. 37:711.8(C)(1) and R.S. 37:711.2.

HISTORICAL NOTE: Promulgated by the Office of the Governor, Board of Professional Geoscientists, LR 41:

Chapter 15. Seal

§1501. Use of Seals

A. License holders must obtain a seal as per R.S. 37:711.22.

B. The following rules for the use of seals to identify work performed by a professional geoscientist shall be binding on every licensee.

1. Seal Possession

a. Each professional geoscientist, upon licensure, shall obtain an official seal.

i. In the case of a temporary permit issued to a licensee of another jurisdiction, the licensee shall affix the seal of his/her jurisdiction of licensure, his/her signature, the date of execution, and his/her Louisiana temporary permit number to all of his/her work.

2. Seal Responsibility

a. The application of the licensee's seal, signature, and date shall constitute certification that the work thereon was done by the licensee or under his/her responsible charge. The licensee shall be personally and professionally responsible and accountable for the care, custody, control and use of his/her seal, professional signature and identification. A seal which has been lost, misplaced or stolen shall, upon discovery of its loss, be reported immediately to the board by the licensee. The board may

invalidate the licensure number of said licensee, if it deems this necessary, and issue another licensure number to the licensee.

3. Seal Use

a. The licensee shall affix his/her seal, sign his/her name, and place the date of execution on all documents that have been issued by the licensee to a client or any public or governmental agency as completed work.

4. Electronic Transmission

a. Documents which require a seal may be transmitted electronically provided the seal, signature and date of the licensee is transmitted in a secure mode that precludes the seal, signature and date being produced or modified.

b. Originally-sealed documents which no longer require a seal may be transmitted electronically but shall have the generated seal, if any, removed before transmitting and shall have the following inserted in lieu of the signature and date: "This document originally issued and sealed by (name of licensee and license number) on (date of sealing). This document should not be considered a certified document."

Small Business Statement

In accordance with section 965 of title 49 of the *Louisiana Revised Statutes*, there is hereby submitted a regulatory flexibility analysis on the Rule proposed for adoption, repeal, or amendment. This will certify the agency has considered, without limitation, each of the following methods of reducing the impact of the proposed Rule on small businesses.

1. The Establishment of Less Stringent Compliance or Reporting Requirements for Small Businesses. The proposed Rule does not require compliance or reporting from small businesses.

2. The Establishment of Less Stringent Deadlines for Compliance or Reporting Requirements for Small Businesses. The proposed Rule does not require compliance or reporting from small businesses.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Professional Geoscientists

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed administrative rules of the newly created Board of Professional Geoscientists provide for the rules and requirements needed for licensure of geoscientists within Louisiana. Pursuant to R.S. 37:711.8.C(1), these new administrative rules codify current practices as the board has been operating within the proposed parameters since 2014. Due to the board already operating within these administrative rules, the only costs associated with the proposed rules will be publishing costs. For context, the Board's current annual budget is approximately \$225,000.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed administrative rules require the Board of Professional Geoscientists to collect an initial application and license fee of \$200 with an annual renewal fee of \$150 for those 59 years of age and below and \$100 for those 60 and older. The Board estimates there will be 400 new licenses in 2015, generating \$80,000 while renewals of current licenses are projected to generate an additional \$120,000. There are also late fees, temporary license fees, and examination fees that will also be used to generate revenue, but are not necessarily mandatory for members to obtain. These administrative rules merely codify current practices as the board has been operating within the proposed parameters since 2014. For context, the Board collected approximately \$270,000 in revenue in 2014.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed administrative rules provide for the governing framework of the Board of Professional Geoscientists. The individuals impacted by the board's existence include practicing geoscientists and new geoscientists requesting to operate in Louisiana. However, due to the board already operating within these administrative rules since 2014, there will be no direct impact to non-governmental groups as a result of the proposed administrative rules.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rules will have no effect on competition and employment as this merely codifies current practices.

§2535. General Standards

A. - D. ...

E. Veterinarian Administered Compounds, also referred to as Pharmacy-Generated Drugs

1. Upon receipt of a valid non-patient-specific medical order from a licensed veterinarian, the pharmacy may compound a preparation intended for administration to an animal patient by the veterinarian.

2. These preparations may not be distributed to any other third party by the pharmacy, nor may these preparations be further re-sold or distributed by the veterinarian ordering the preparation from the pharmacy.

3. This authorization is primarily intended to facilitate the preparation of medications needed for emergency use in a veterinary office practice. pharmacy preparing these products shall be limited in the amount of such products they can prepare.

a. No Louisiana-licensed pharmacy may distribute any amount of practitioner administered compounds in excess of 5 percent of the total amount of drug products dispensed and/or distributed from their pharmacy.

b. The 5 percent limitation shall be calculated on a monthly basis and shall reference the number of dosage units.

c. For those Louisiana-licensed pharmacies located outside Louisiana, the total amount distributed and/or dispensed shall reference the pharmacy's total business within the state of Louisiana.

F. Compounding Commercial Products not Available. A pharmacy may prepare a copy of a commercial product when that product is not available as evidenced by either of the following:

1. products appearing on a website maintained by the federal Food and Drug Administration (FDA) and/or the American Society of Health-System Pharmacists (ASHP);

2. products temporarily unavailable from manufacturers, as documented by invoice or other communication from the distributor or manufacturer.

G. Labeling of Compounded Preparations

1. For patient-specific compounded preparations, the labeling requirements of R.S. 37:1225, or its successor, as well as §2527 of this Chapter, or its successor shall apply.

2. For veterinarian administered compounds, the label shall contain, at a minimum, the following data elements:

a. pharmacy's name, address, and telephone number;

b. veterinarian's name;

c. name of preparation;

d. strength and concentration;

e. lot number;

f. beyond use date;

g. special storage requirements, if applicable;

h. identification number assigned by the pharmacy; and

i. name or initials of pharmacist responsible for final check of the preparation.

**FISCAL AND ECONOMIC IMPACT STATEMENT
FOR ADMINISTRATIVE RULES**

**RULE TITLE: Compounding for
Office Use for Veterinarians**

**I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO
STATE OR LOCAL GOVERNMENT UNITS (Summary)**

The proposed rule will result in a cost of approximately \$2,000 for printing costs of the proposed and final rules in FY 16. The proposed rule authorizes pharmacies to compound medications for office use for veterinarians according to standards and limitations identified in the proposed rule.

**II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE
OR LOCAL GOVERNMENTAL UNITS (Summary)**

There will be no impact on revenue collections of state or local governmental units from the proposed rule.

**III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO
DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL
GROUPS (Summary)**

The proposed rule directly affects those pharmacies which elect to compound medications for office use for veterinarians. While the existing rule identifies the minimum standards for

quality and safety, the proposed rule authorizes compounding drugs for office use for veterinarians but limits the amount of these medications that a pharmacy may compound to not exceed 5% of the total amount of drug products dispensed or distributed. The costs and benefits associated with compounding for office use for veterinarians are similar to those for compounding medications for patient-specific prescriptions.

**IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT
(Summary)**

To the extent a pharmacy may elect to engage in the activity authorized by the proposed rule and develops a market for that activity, there could be a positive effect on employment.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Electronic Signature on Facsimile Prescription

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule will result in a cost of approximately \$2,000 for printing costs of the proposed and final rules in FY 16. The proposed rule will allow pharmacies to continue to accept facsimile prescriptions bearing electronic signatures of the prescriber, but only for a limited period of time ending December 31, 2016.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There will be no impact on revenue collections of state or local governmental units from the proposed rule.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule directly affects those pharmacies which do not yet accept electronic prescriptions. The proposed rule also affects prescribers using prescription generating software systems that do not alert the prescriber when the electronic prescription generated and signed by the prescriber cannot be delivered to the intended pharmacy because it is unable to accept electronic prescriptions, and then further, converts the prescription to a facsimile format for delivery without alerting the prescriber. The time delay in the proposed rule is intended to give pharmacies additional time to upgrade their systems to accept electronic prescriptions, and further, to give vendors (and clients of those vendors) of prescription generating software additional time to upgrade their systems to notify the prescriber when their electronic prescriptions cannot be delivered electronically and to prohibit the subsequent conversion of that prescription for delivery to the pharmacy by facsimile.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

There will be no impact on competition or employment from the proposed rule.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Remote Access to Medical Orders

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule will result in a cost of approximately \$2,000 for printing costs of the proposed and final rules in FY 16. The proposed rule will authorize pharmacist practicing at hospital pharmacies to access their pharmacy's dispensing information system from any location outside the pharmacy for the purpose of processing medical orders.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

There will be no impact on revenue collections of state or local governmental units from the proposed rule.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule will allow hospital pharmacies to enable their pharmacists to access the pharmacy's dispensing information system from any location outside the pharmacy for the purpose of processing medical orders. The proposed rule requires the establishment of policies and procedures to protect the privacy and security of confidential records. There may or may not be additional costs for the creation or maintenance of systems or procedures to facilitate the remote access to pharmacists. To the extent such pharmacies may currently be contracting with outside firms for the remote processing of their medical orders, this proposed rule may provide a more economical option by allowing either existing staff or new staff to remotely process those orders from their homes or other locations.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule will authorize hospital pharmacies to allow their staff pharmacists to remotely access the pharmacy's dispensing information system from any location outside the pharmacy. This capability has the potential of replacing current contracts with other pharmacies for the purpose of remotely processing medical orders, which could have a positive effect on competition and employment.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Remote Processor Permit

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule will result in a cost of approximately \$2,000 for printing costs of the proposed and final rules in FY 16. The proposed rule will create a new classification of limited services pharmacy permit, for the purpose of enabling the establishment of remote processor pharmacy sites.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule may result in an indeterminable increase in fees and self-generated revenues to the Board of Pharmacy. The cost of a new pharmacy permit is set at \$150 by statute while a renewal permit is set at \$125. The Board of Pharmacy does not anticipate issuing a large number of permits.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

This type of pharmacy permit will not be authorized to procure or possess drugs for dispensing to patients, but they will be authorized to provide clinical services for other pharmacies, specifically the remote processing of medical orders or prescriptions for other pharmacies. The cost to establish and operate this type of pharmacy will be substantially less than the cost to operate a basic community pharmacy due to the absence of drug costs; however, there could be significant technology or communication costs.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule will enable the establishment of remote processor pharmacy sites within the state which has the

potential to facilitate competition with such sites located in other states as well as the potential for a positive effect on employment.

c. In the absence of a pharmacist, the site shall be staffed by one, and only one, Louisiana-licensed certified pharmacy technician. The technician present at the telepharmacy dispensing site shall be included with the other personnel at the supervising central pharmacy when calculating the ratio of pharmacists to technicians.

d. A pharmacy intern may not practice at a telepharmacy dispensing site.

e. Additional clerical personnel may also be present at the site.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Telepharmacy Services Permit

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule will result in a cost of approximately \$2,000 for printing costs of the proposed and final rules in FY 16. The proposed rule will create a new classification of limited services pharmacy permit, for the purpose of enabling the establishment of telepharmacy dispensing sites.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule may result in an indeterminable increase in fees and self-generated revenues to the Board of Pharmacy. The cost of a new pharmacy permit is set at \$150 by statute while a renewal permit is set at \$125. The Board of Pharmacy does not anticipate issuing a large number of permits.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule will directly affect those existing pharmacies which intend to establish remote telepharmacy dispensing sites. The proposed rule identifies the general requirements, licensing procedures, and operational standards. The cost to establish and operate a telepharmacy dispensing site should be less than that to establish a basic community pharmacy; however, the requirement to use telepharmacy technology to link the telepharmacy dispensing site with its central pharmacy will add to the operational cost of the central pharmacy. The benefits of a telepharmacy dispensing site will accrue to the citizens of that part of the state where there is little or no current access to pharmacist care or pharmacy services.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

To the extent a telepharmacy dispensing site can be established in a location where there are no other pharmacies within a certain radius, the proposed rule may have a positive effect on employment.

Residential Options Waiver
(LAC 50:XXI.Chapters 161-169)

The Department of Health and Hospitals, Bureau of Health Services Financing and the Office for Citizens with Developmental Disabilities propose to amend LAC 50:XXI.Chapters 161-169 under the Medical Assistance Program as authorized by R.S. 36:254 and pursuant to Title XIX of the Social Security Act. The Department of Health and Hospitals, Office for Citizens with Developmental Disabilities adopted provisions establishing the Residential Options Waiver (ROW), a home and community-based services (HCBS) waiver program, to promote independence for individuals with developmental disabilities by offering a wide array of services, supports and

residential options that assist individuals to transition from institutional care (*Louisiana Register*, Volume 33, Number 11). The department promulgated an Emergency Rule which amended the November 20, 2007 Rule to revise the provisions governing the allocation of waiver opportunities and the delivery of services in order to provide greater clarity (*Louisiana Register*, Volume 36, Number 4). As a result of a budgetary shortfall in state fiscal year 2011, the department promulgated an Emergency Rule which amended the provisions governing the ROW to clarify the provisions governing the annual service budget for waiver participants and to reduce the reimbursement rates for waiver services (*Louisiana Register*, Volume 36, Number 8). The department promulgated an Emergency Rule which amended the provisions of the May 1, 2010 Emergency Rule to incorporate the provisions of the August 1, 2010 Emergency Rule (*Louisiana Register*, Volume 36, Number 8). The department subsequently promulgated an Emergency Rule which amended the provisions of the August 20, 2010 Emergency Rule governing the allocation of waiver opportunities in order to adopt criteria for crisis diversion, to revise the provisions governing the individuals who may be offered a waiver opportunity, and to clarify the provisions governing the developmental disabilities request for services registry (*Louisiana Register*, Volume 37, Number 6). Regulation 51—Individual Health Insurance Rating Requirements (LAC 37:XIII.Chapter 27)

The Department of Insurance, pursuant to the authority of the Louisiana Insurance Code, R.S. 22:1 et seq., and in accordance with the Administrative Procedure Act, R.S. 49:950 et seq., hereby gives notice of its intent to repeal Regulation 51—Individual Health Insurance Rating Requirements.

The purpose of Regulation 51 was to facilitate the implementation of R.S. 22:228.6. The intent of R.S. 22:228.6 was to establish a modified community rating system for health care premiums in the state. Adherence to the Rule by individual health and accident insurance carriers would bring carriers into compliance with R.S. 22:228.6. However, due to the amendment and reenactment of R.S. 22:972, R.S. 22:1091 through 1099, and pursuant to section 2794 of the Public Health Service Act (42 USC 300gg-94), 45 CFR Part 154, and any federal regulation issued in accordance with such federal law, Regulation 51 is no longer needed. Therefore, Regulation 51 is being repealed in its entirety.

However, no organization shall be approved as an IRO or added to the list of approved IROs until it has submitted for approval a completed application packet and proof of accreditation by a nationally recognized private accrediting body that maintains accreditation standards equivalent to or higher than the minimum qualifications set forth in R.S. 22:2441. If the commissioner does not approve an IRO, the IRO will be notified of the disapproval in writing.

§6209. Requesting an External Review

A. All requests for external review must be made by the issuer through the IRO review request module, which can be accessed via the industry access link on the LDI's website: www.lidi.la.gov. When an enrollee requests an external review, the issuer shall notify LDI by entering this request via the link. The request must be entered even if the issuer determines the request is ineligible for review.

B. If the covered person requests an external review but the insurer denies the request as being ineligible pursuant to R.S. 22:2436(B), the covered person or his authorized representative may appeal in writing to the commissioner. The insurer and the insured both may submit additional documentation, such as the policy to verify coverage limitations as well as dates of coverage, documentation of service dates, etc., to help establish why the denial should be upheld or reversed. However, no medical or protected health information should be submitted to the commissioner for this review, unless such information is determinative of the issue in the appeal.

C. Upon receipt of an appeal of an issuer's eligibility determination, the LDI may contact the issuer's designated contact to request additional information, if necessary. Therefore, all issuers should ensure that the designated contact's information is regularly updated in the Industry Access portal, as all electronic communications – including assignment of a case to an IRO, reporting of an IRO's external review results, reporting of the commissioner's decision on eligibility for an external review, etc. – will be sent automatically to the designated contact of record that is on file with the LDI.

D. To facilitate notice of the right to appeal a determination of ineligibility to the commissioner, the issuer shall include the reason for ineligibility, as well as the following language (or language that is substantially similar), in its notice to the insured:

“[Name of issuer] has determined that your request for an independent external review of your adverse determination does not meet the eligibility requirements for independent external reviews because [reason]. However, [name of issuer]'s determination that you are ineligible for an external review may be appealed to the Commissioner of Insurance, who has the authority to reverse [name of issuer]'s decision and order an independent external review of your adverse determination. If you wish to appeal this decision, you should go to the following website: <https://ldi.la.gov/OnlineServices/IROConsumerAppeals>.

Once you access the website, enter your last name and case number where instructed. Following verification of your name and case number, you will be able to enter the reasons you

believe your adverse determination should be eligible for an independent external review. If you have questions or if you or your authorized representative is unable to access the website, you may contact the Louisiana Department of Insurance by e-mail at ConsumerAppeals@ldi.la.gov or by telephone at (225) 342-1355.

Your case number is _____.”

1. Issuers must also upload a copy of the adverse determination letter when reporting external review requests that have been deemed ineligible.

E. If an insured requests an external review and the insurer does not deny the request as being ineligible or if the commissioner reverses a request that the insurer had deemed ineligible for external review, the health insurance issuer must submit the request to the LDI for assignment of an external review by using the IRO review request form which can be located on the LDI website, www.ldi.la.gov via the industry access portal.

F. When completing the IRO review request form, the insurer must enter the following information:

1. the insured’s name;
2. insured’s contact information (address, telephone, email address, fax);
3. name of insured’s authorized representative (if applicable);

7. type of specialty;
8. type of appeal requested: medical, rescission or experimental;
9. type of appeal requested: standard or expedited;
10. result of request: eligible or ineligible.

G. Once the case has been assigned, neither the covered person nor the health insurance issuer may request the case be reassigned to another IRO, as all IRO assignments are final, unless reassignment is necessary pursuant to Subsection E of §6211.

AUTHORITY NOTE: Promulgated in accordance with R.S. 22:2452.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Regulation 103—Utilization Review Organizations and Independent Review Organizations

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule will not result in implementation costs or savings to state or local governmental units. Regulation 103 statutorily replaces regulation 77, pursuant to La. R.S. 22:2391-2453 as enacted by Act 326 of the 2013 Louisiana Legislative Session. The purpose of the proposed rule is to establish the standards and criteria for the structure and operation of Utilization Review Organizations (URO) and Independent Review Organizations (IRO). These organizations replace Medical Necessity Review Organizations (MNRO) and all references to MNROs are repealed from the Louisiana Administrative Code.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed Regulation 103 will result in an indeterminable but likely minimal increase in SGR to the Louisiana Department of Insurance (LDI) associated with \$500 biennial licensing fees and \$500 annual report filing fees for IROs. LDI implemented these procedures and licensures as per statute during FY15.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed Regulation 103 codifies existing practice and will have no impact on economic costs or benefits to directly affected persons or non-governmental groups. At the time the department enacted the requirements of Act 326 of 2013, MNROs paid a one-time licensing fee of \$1,500 and an annual report filing fee of \$500. Those fees do not change with the transition to becoming UROs. Prior to the enactment of Act

326, IROs were certified (not licensed) and did not file an annual report. With the transition to licensure, IROs began paying a \$500 biennial licensing fee and now are required to file an annual report with the accompanying \$500 fee.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed Regulation 103 will have no impact upon competition and employment in the state.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Request for Permission to Reapply

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

The proposed rule change will have no effect on state or local governmental expenditures. Act 370 of 2014 allows a person whose gaming license, permit, or approval has been revoked, or who has been found unsuitable to participate in the gaming industry, to reapply prior to the passage of five years, if he or she can show good cause as to why the early reapplication should be allowed. The proposed rule sets forth five exclusive circumstances that may give rise to a finding of "good cause," and which may allow a person to reapply, subject to the Louisiana Gaming Control Board's approval of the Request for Permission to Reapply.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule change will have no effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule change will have no effect on costs to directly affected persons or non-governmental units. The rule has the potential to have economic benefits to directly affected persons. To the extent the request is approved by the Louisiana Gaming Control Board, the individual seeking to reapply would be granted the right to make application for a gaming license, permit, or approval, or finding of suitability to participate in Louisiana's gaming industry, prior to the passage of five years.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule has the potential to impact employment in Louisiana's private gaming industry since it has the potential to grant individuals an opportunity to reapply for a license,

permit, or approval, or finding of suitability, prior to the passage of five years, thus being employed in the gaming industry sooner than ordinarily allowed by law.

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES RULE TITLE: Business Enterprises Program Manual

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

This proposed rule amends Louisiana Administrative Code (LAC) Title 67 Social Services, Part VII Rehabilitation Services, and Chapter 5 Business Enterprises Program Manual to comply with ACT 761 of 2014 that authorized technical changes to existing law. The proposed rule amends seven sections of the Business Enterprise Program Manual for the Randolph-Sheppard Program. The changes are as follows: (1) removes the "Department of Social Services" throughout the chapter; (2) replaces the term "preference" with "priority" regarding vending/cafeteria services to certain facilities in Section 507 State Legal Authority; (3) revises definitions to reflect language in the law, (4) corrects a numbering error; (5) adds procedures for enforcing Randolph Sheppard priority, adds rules and regulations regarding employment targets, and time frames for new reporting requirements in Section 519 State Licensing Agency Responsibilities for Business Enterprises Operations, and (6) revises content to reflect language in the law.

The proposed rule will not impact the overall expenditures of the department. The only costs associated with this proposed

rule are administrative expenses necessary for the promulgation the rule. It is estimated that \$1,200 of Federal funds will be expended in FY 15 for the state's administrative expense for promulgation of this proposed rule and the final rule. The cost of rulemaking is routinely included in the agency's annual operating budget.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule will have no anticipated effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule is not anticipated to have a fiscal impact on non-governmental groups. However, the exact impact of the proposed rule that strengthens "priority" for Randolph Sheppard Managers is not known.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

FISCAL AND ECONOMIC IMPACT STATEMENT FOR ADMINISTRATIVE RULES

RULE TITLE: Randolph-Sheppard Trust Fund Policy

I. ESTIMATED IMPLEMENTATION COSTS (SAVINGS) TO STATE OR LOCAL GOVERNMENT UNITS (Summary)

This proposed rule revises Louisiana Administrative Code (LAC) Title 67 Social Services, Part VII Rehabilitation Services, and Chapter 21 Business Enterprises Program Manual to comply with ACT 761 of 2014 that authorized technical changes to existing law. The proposed rule amends six sections of the Business Enterprise Program Manual for the Randolph-Sheppard Program. The changes are as follows: (1) removes the "Department of Social Services" and replaces it with "Louisiana Workforce Commission" throughout the chapter; (2) removes the term "advisory" and replaces it with "with the active participation of the Blind Vendors Trust Fund Board" in Section 2111 Expenditures; (3) removes the term "associated" and replaces it with "consistent" to reflect the language changed in ACT 761.

The proposed rule will not impact the overall expenditures of the department. The only costs associated with this proposed rule are administrative expenses necessary for the promulgation of the rule. It is estimated that \$1,200 of Federal funds will be expended in FY 15 for the state's administrative expense for

promulgation of this proposed rule and the final rule. The cost of rulemaking is routinely included in the agency's annual operating budget.

II. ESTIMATED EFFECT ON REVENUE COLLECTIONS OF STATE OR LOCAL GOVERNMENTAL UNITS (Summary)

The proposed rule will have no anticipated effect on revenue collections of state or local governmental units.

III. ESTIMATED COSTS AND/OR ECONOMIC BENEFITS TO DIRECTLY AFFECTED PERSONS OR NONGOVERNMENTAL GROUPS (Summary)

The proposed rule is not anticipated to have a fiscal impact on non-governmental groups.

IV. ESTIMATED EFFECT ON COMPETITION AND EMPLOYMENT (Summary)

The proposed rule is not anticipated to have an impact on competition and employment.
