Program Authorization: Constitution of State of Louisiana, Article IV, Section 21; Louisiana Revised Statutes 36:721 and 722; 45:1161 et seq; 45:1177 (A)(2) and (3) and (C); 45:1177.1; 45:1180 and 45:1181(A)

Program Description

The mission of the Support Services Program is to review, analyze, and investigate rates and charges filed before the Commission with respect to prudence and adequacy of those rates; and to manage the progress of adjudicatory proceedings, conduct evidentiary hearings and make rules and recommendations to the Commissioners which are just, impartial, professional, orderly, efficient and which generate the highest degree of public confidence in the Commission's integrity and fairness.

Goals of the Support Services Program are to ensure that jurisdictional company rates are fair and reasonable to the consumer and provide a fair rate of return to the company by providing the Commission with accurate reporting of regulated utility and common carrier companies' financial condition, level of earnings, rate of return, adherence to federal, state, local, and Public Service Commission laws, regulations and guidelines to assist in decision-making responsibilities; and to ensure that all parties to adjudicatory hearings are provided a fair and impartial hearing, orderly progress of the case, a complete record, and a sound decision.

The Support Services Program includes the following activities:

- Administrative Hearings Division- Conducts fair and impartial public evidentiary hearings on complex issues within the Commission's jurisdiction (rates and services of public utilities and motor carriers), creates a public record and transcript of the proceedings, and prepares proposed findings of fact and conclusions of law for consideration by the Commissioners in making final decisions. The utility cases handled by the Division are quite possibly the most complex and financially significant of any cases currently handled by the administrative law judges or referees in any Louisiana state agency. The Division handles cases that:
 - Have statewide application- affecting citizens, public utilities, trucking companies, industries and commercial enterprises throughout the state;
 - Have significant impact on economic development in the state and Corporate America's perception of the state;
 - Are extremely technical, involving testimony presented predominantly by expert witnesses;
 - Are monetarily significantly- resulting in multi-million and billion dollar judgments; and
 - Involve constitutionally protected property rights.
- Utilities Division: Responsible for the maintenance of all rates and conditions of service records filed by regulated utilities. Works closely with the Audit Division to examine and audit costs of electric fuel adjustments and natural gas purchases by natural gas companies. Assist with investigation of complaints that cannot be resolved at the district office level.

Program Authorization: Constitution of the State of Louisiana, Article IV, Section 21; Louisiana Revised Statutes 36:721; 45:1161 et seq

Program Description

The mission of the District Offices is to provide accessibility and information to the public on regulation as it applies to the services provided to the consumer.

Goals of the District Offices Program:

- I. Are to provide effective and efficient services to ensure that consumer problems, issues, and complaints are sufficiently monitored and addressed in a timely manner, and to promote fair regulation of the public utilities and motor carriers operating in the State of Louisiana.
- II. Provide a fair, consistent, and efficient regulatory process which results in reasonable rates for the consumer and a reasonable profit or rate of return for the utility or common carrier.
- III. Continue to revise and update rules and regulations to the extent necessary to remain on the forefront of utility, common carrier and "Do Not Call" regulations in the country.

The District Offices are composed of five districts statewide, each of which houses one of the five elected Commissioners. These offices have regulatory oversight over approximately 1,200 electric, natural gas, telecommunications, and water and sewage utilities and approximately 900 common motor carriers in Louisiana. The regulation of such public utilities is critical to the economic climate and quality of life for all citizens of Louisiana. The public as well as business and industry have easy access to the services of the Public Service Commission via District Offices located strategically across Louisiana.
